

vidence of a grant from the Crown, and that, consequently, persons cutting sea weed upon rocks standing on his soil were punishable as trespassers. I see no reason, upon re-consideration, to alter that opinion; in all such cases, I should say, that the owner of the land to high water mark is also the proprietor of weed growing on rocks situated between high and low water mark.

"But even supposing the person who claims such property in the soil not to succeed in establishing it against the crown, another question arises as to the common right of all her Majesty's subjects, whether as against the crown, or against an individual, to enter upon the sea shore and take sea weed, between high and low water mark.

"For some purposes, such for instance as navigation, the rights even of the Crown are subordinate to those of the public. But this is not the case with respect to sea weed, as the public have, as I understand, been given by some persons to understand. The contrary has been decided by the Court of Queen's Bench, in the case of "Howe versus Stowell," in Alcock and Napier's Reports, 348. The claim, therefore, of any stranger to exercise this right cannot be admitted, whatever may be the state of rights between the Crown and the proprietor of the adjoining estate, which, as I have already observed, must depend upon grant or prescription.

"If the right of an individual, as one of the public, to take the weed, be not sanctioned by law, far less can it be tolerated that multitudes of persons shall assemble with threats of violence and weapons, for the purpose of carrying it away by force—such assemblies, thus prosecuting, by intimidation and violence, a design not warranted by law, are, in my opinion, unlawful assemblies; and the persons engaged in them are proper subjects for indictment.

"It is to be hoped that the promulgation of the law on this subject, as solemnly decided by the Court of Queen's Bench, will have the effect of inducing persons hitherto employed in those proceedings to desist, and of preventing others from being misled, by what possibly may have been a misapprehension of the law. Should this prove not to be the case, it will be the duty of the Government to consider what steps ought to be taken for the protection of the property injured, and the punishment of these, who, being fully apprised of the illegality of their conduct, shall deliberately interfere with it. If any person bona fide conceives that he has such a right, as has in those cases been alleged, his course is to proceed by civil action for an interruption of it, if, after the decision to which he has referred, he shall be advised so to do.

RICHARD W. GREEN.

March 28th, 1843.

"It follows from the foregoing opinion, that if any large body of persons tumultuously assemble, for the purpose of taking away sea weed, they may be arrested, and held to bail to abide their trial for misdemeanour; and that Magistrates would be authorized, under 3 Geo. III. chap. 19, to disperse them, if that should be necessary, to prevent them from forcibly carrying away the sea weed.

We copy the following, in reference to our countryman Mr. D. Leonard, from the *Kentish Gazette* of yesterday last:—

"CANTERBURY THEATRE—On Saturday evening Mr. Leonard, who has stepped forward to fill the void occasioned by the untimely fate of the almost imitable Power, appeared in 'The Irish Attorney' and 'His Last Legs.' These pieces were produced for the purpose of displaying Mr. L.'s peculiar talent, and met with a most enthusiastic reception. Mr. Leonard's acting is of a high cast—it indicates a true perception of character, combined alike with genius and judgment. The mantle of Power has fallen upon his shoulders. May he be equally fortunate in histrionic speculation."

stitution is quite unimpaired by any such races being won with ease, nor was he ever slayed by travelling about and running heats—a freshness which together with his youth, must insure large and thriving foals.

PEDIGREE.—He was got by Turcoman dam, (a winner in England,) Miss Foot, (imported by Lord Sligo,) by Whisker, (winner of the Derby's,) grand dam by Caleb Quotem, one of the very best sons of Sir Peter, out of the famous Anna Bullen, by John Bull. Turcoman (winner of the 2000 guinea stakes,) and own brother to Torquoise, (winner of the Oaks) was by Selim, sire of the famous Sultan, who covered at 100 guineas, out of Pope Joan, the best sister of Waxy Pope. Thus, Roscius's pedigree combines the Selim with the Whisker and Whalebone crosses—the same combination that distinguished Bay Middleton, Glencoe, Cæsar, Achmet, Ishmahel, and Ibrahim, (all by Sultan), Minaret, the fastest mare in England, Annetta, fastest mare in France, and Reel,\* the best mare in the world, Fillagree, their grand-dam being out of Web, sister to Whisker. To this same combination is added in Roscius the blood of Sir Peter and John Bull, (the best blood in Beeswing), the only two crosses wanting to render his pedigree perfection itself.

## PERFORMANCE OF ROSCIUS.

In April, 1839, when three years old, he won the Post stakes, 25 sovs. each, at the Curragh meeting; he won in a common canter, the Madrids, beating Medea, Clone, Romp, Heather Bell, (then Colonel Synge's) &c. &c.; Roscius 8st and Heather Bell also three years old, only 7st 4lb. In June following, she won the Tuesday's King's Plate, beating, with the greatest ease Claret, M. P. &c. and won the Lord Lieutenant's Plate same year. Roscius could have given her 1st 7lb. In May, 1839, Roscius won the Kirwan's of £750, beating Wirristrue, George, Medea, M. P. Vestris, Colt, &c. Roscius's previous trials proved him a stone better than Clinker, and he was so rated in subsequent handicaps; yet, the very same day (Monday) Clinker, 3 years old, 7st 9lb. won very easily, the Dorics' Heats, beating Blush, 4 years old, only 8st 4lb. Arthur, 6 years old, only 9st 1lb. Waitstill, aged, 9st. and Barebones, aged, 8st 7lb; Barebones was distanced. The above weights show, that Clinker gave great weights, for his years, to all the others. Same meeting, Roscius won the Queen's plate, and also the Challenge of the Kirwan's, £200 beating George. Roscius was then taken to England, where, at Newmarket, Houghton Meeting, he won the Great Cambridge-shire Stakes £900, beating a large field in a canter the Dey of Algiers (winner of the Chester Cup,) running a very bad second. Same meeting, he won the Audley End Stakes, carrying 8st 13lb. the very highest weight, though then only four years old, and won it with the greatest ease; though being shut out a few strides from the finish, he was obliged to come round his horses. His owner then refused 2,000 guineas for him, and he was considered, as his weight in Handicaps after shewed, about the best horse in England. In these he gave Retriever and Clinker a stone. In 1841, in running well for the Cæsarship Stakes, when changing his legs, he met an accident, and never was fit to start since. In his English Races he beat, among others, the Dey of Algiers, winner of the Chester Cup, Satirist, winner of the Legers, and a vast number of first rate horses.

Good Grass for Mares and Foals, with Bran and Carrots at Market prices.

\* She ran the first heat, four miles over deep ground, and with high weight, in 7 minutes, 51 seconds, and the second heat in 7 minutes, 56 seconds—a performance without example on the turf.

March 25.

TO THE EDITOR OF THE LIMERICK CHRONICLE.  
Ringroe, Burrisokane, 24th March, 1843.

SIR,  
MAY I request the insertion of the following in your next publication:—  
Having called on Captain DUFF, as the friend of Mr. BOWLER, relative to certain expressions used by him injurious to the character of Mr. BOWLER, which expressions Captain DUFF stated had been made use of to him at Tullamore, by Doctor BINDON, in presence of Mr. H. MINCHIN, I beg leave to say that I immediately called on Doctor BINDON, who in the most positive manner denied ever having made use of such expressions to Captain DUFF, and authorises me, through his friend, Counsellor WALLER, to state, in the most public manner, that he (Doctor BINDON) neither directly or indirectly made use of the expressions alleged by Captain DUFF to him (DUFF) or any other person.

I am, Sir,  
Your obedient servant,  
JOHN CAREW.
