On Wednesday, the 15th inst. in Upper Pembroke-street, Dublin, aged 23 years, James Gloster, Esq. eldest son of the late Edward Gloster, Esq. of this City. His life, short as it was, gave ample time for the exhibition of every virtue. He was a young man of the highest and most honourable principles—of great purity of heart and integrity of conduct—a faithful friend, and the best and most affectionate of sons and brothers. A deep sense of religion inspired him at all times with a just feeling of what was due to himself and to others, and regulated his conduct through life. He was educated in Trinity College, Dublin, and was there distinguished for his attainments. About three years ago, while he was at the Temple, pursuing his studies for the Bar, the first symptoms of pulmonary consumption manifested themselves. In the interval between that and his death not a murmur of impatience was expressed by him.

"Deep for the dead the grief must be,

THE MANCHESTER
FIRE AND LIFE
Assurance Company,
CAPITAL,
TWO MILLIONS.
ESTABLISHED MARCH, 1824.
98, KING-STREET, MANCHESTER.

BONUS.

At the Annual General Court of Proprietors, held on the 20th June, 1839, Bonuses were declared to the assured in the Fire Department of £10 per Cent. on the premiums received during the five years previous to the 25th March, 1839, to be paid on all assurances of two, or more years' standing, and to the assured in the Life Department, on all policies for the whole duration of life, of four, or more years' standing, on the 25th March 1839, of very nearly 26 per Cent. on the amount of the premiums received thereon, improved at compound interest, to be added to the sum assured by such policies when they become claims, or an equivalent reduction to be made in the annual premiums upon them, at the option of the parties entitled thereto.

The attention of those who have insured at this Office, and of the public generally, is requested to the above satisfactory announcement. The benefits thus derived by insurers, in addition to low rates, and the fact that every claim which has occurred since the establishment of the Office in Limerick, has been punctually discharged without demur or dispute, will point out the manifest advantage of insuring with this wealthy Company.

FIRE DEPARTMENT.

The Assured are entitled to one-third of the profits without any liability on their part to the losses.

LIFE DEPARTMENT.

The Assured are entitled to two-thirds of the profits without any liability on their part to the losses.

The Premiums charged are lower than those of the majority of other offices.

The business of the Life Department is kept quite distinct from that of Fire, and its accumulations are not liable to make good any losses arising therefrom.

The Rates of premium, and all other particulars may be obtained on application to

MESSRS. GLYN, HALLIFAX, & CO. | SIR CLAUDE SCOTT, Bart. MILLS, & CO. and Co.

At the present day, the principles of Life Assurance are so well known, and its advantages so justly appreciated, that little explanation is required. The duty of providing for the contingencies to which life is subject is universally admitted. To all persons engaged in the professions of the Church, Army, and Navy, Law, in public offices; Medical and other Professional men; and all whose incomes depend upon their own exertions the duty of Life Assurance, to enable them to provide at a small cost for their wives and families, is evident and paramount. Among its other advantages may be enumerated:—the security offered to Creditors by Assuring the Lives of their debtors; Fines payable on renewal of leases on lives may be provided whenever they may be called for; Loans effected on Life Interest, and money advanced or annuity may be secured; Marriage settlements may be effected.

The great increase of Insurance Societies that has lately occurred, manifests that their utility is more understood, whilst the multiplication of Offices has induced competition leading to a ruinous reduction of premium, the consequences of which are too disastrous to contemplate.

The principles on which this Company is founded were adopted after mature consideration; and to the assured it offers the combined advantages of the most successful establishments of its kind that have been formed of late years—moderate rates of premium and a large proportion of profits. The soundness of its principles, and the extensive influence exercised by the Directors, have placed the Company on a sure basis; and the accumulations have been so considerable as materially to benefit the Policy holders.

The objects of the Company extend to assurances on Lives and Survivorships, and every other contingency, and the purchase of Life Interests and Annuities. The Rates of Premium adopted by this company have stood the test of twenty years' experience, and are calculated on such equitable and correct principles as entirely secure the confidence of the public.

Tables are prepared, enabling persons to insure, either participating in profits, or at the least possible cost. By the former method they realize all the objects of Life Assurance, and benefit by their own longevity, without the speculative risk of Mutual Assurance Societies.

The Directors particularly invite the attention of the Public to a new adaptation of the principles of Life Assurance in the Table of Premiums for the Assurance of Sums to be paid, provided a person attain a given age, say 50, 55, or 60. Should, however, the life fail before the stipulated period, the sum assured will be paid to the representatives. By this highly beneficial method, persons may by an investment of a portion of their profits during their years of labour, secure an early retirement from business, with the certainty of provision for their families in the event of premature death.

For Assurances for limited periods, or for securing the Equitable Society's Bonus of 1850, the rates of this Company will be found peculiarly advantageous. A strict investigation of the affairs of the Company has been made for five years ending 31st December 1841; and of the Profits thereby ascertained to have accrued, four-fifths have been apportioned among the Assured, by the participating scale, for the whole term of Life, or one or more year's standing, in proportion to premium paid by each; and appropriated, at the option of the Assured, either as a Reversionary Bonus, payable when the Policy becomes a claim, or its value applied to the reduction of subsequent premiums. The reversionary Bonus averages 31 per cent. on the premiums paid during the last five years. The equivalent reduction of Premiums averages nearly 17 per cent. on the annual premiums payable during the next five years. It is worthy of notice, that the profits of the Life Assurance Fund are not subject to any diminution from payment of interest to proprietors.

A liberal sum will be given for the surrender of the Company's Policies, whenever the object for which they were effected may be accomplished. Persons assured by this Company are allowed to reside any where within the limits of Europe; and to pass by Sea, in time of peace, in decked vessels and steam-boats from any part of Europe to another, without any extra charge, or without obtaining permission of the Directors for that purpose.

No extra premium will be charged on the Lives of Military or Naval Men, unless they enter or are called into active service, when the lowest rate consistent with safety will be required. Premiums, founded on correct data, have been specially calculated for Assurance on Lives of officers in the Military or Civil Service of the East India Company; and the Lives of any person proceeding to any part of the world will be assured on terms commensurate with the risk incurred.

Premiums may be paid, either by even annual payments; by a single payment; by payments for a limited number of years; and also by an ascending scale. In addition to the utmost liberality exercised by the Directors in the settlement of claims, the Company will be liable should a person assured die within one month after a renewable Premium becomes due, provided the Premium be paid within the stipulated period.

In the event of dispute (where no fraud is suspected,) the subject thereof will be referred to arbitration. No entrance-money or fees of any kind are exacted nor any charge made for Policies beyond the cost of the stamps. Tables, and every information, may be obtained at the Office, and at

W. T. ROBINSON,
August 3. Attorney and Secretary.

To EMIGRANTS to the Australasian Colonies, assured for the whole of their lives, the Company offers the permission to reside in any of those Colonies without extra Premium, and to pay their Premiums there. For Residence in New Zealand a moderate extra Premium is charged.
To ALL POLICYHOLDERS, the Company offers the advantages of the guarantee of an ample subscribed Capital,—of permission to retain one-third of the Premium in their own hands (the portion so retained, with interest upon it, being deducted from the Policy when it becomes a Claim.)—of Ascending, Descending, and other Scales of Premiums, and of Participation in Profits.

T. AND H. SMITH'S
Fluid Extract of Senna,
PREPARED IN VACUO,
Sold in Bottles at 2s. 6d., and 5s. and 10s. each.
THIS is a pure Extract of Senna, in a high state of perfection, prepared in Vacuo. It is an efficient and easy purgative, in small doses; those for adults seldom exceeding one or two teaspoonfuls. For children, to whom the common Senna Tea is unconquerably loathsome, the Fluid Extract of Senna is truly valuable. Being not only free from the nauseous taste and smell of the drug, but being exceedingly pleasant to the taste, it is taken by them even with a relish.
The Fluid Extract of Senna will be found exceedingly suitable to those cases, where all kinds of Aloes are inappropriate, and particularly where there is a torpid action in the stomach and bowels, whether constitutional or brought on by sedentary occupation, and other causes. In such cases small and daily repeated doses will prove more efficient in removing this languid condition, by exciting them to a gentle and healthy action, than any other purgative; consequently, in Paralysis and Head Affections it will be especially useful.
As a protection against spurious imitations, Medical Men and the Public will please observe that in future each Bottle will be authenticated by an engraved Label, with the actual signature of the Proprietors and Inventors, attached to the outside wrapper.
Prepared only by T. & H. SMITH, Chemists, 21, Duke-street, Edinburgh.
