MR. W. W. SIMPSON has received directions from the mortgagees to SELL by AUCTION, at the Commercial-buildings, DUBLIN, on WEDNESDAY, Oct. 2, and two following days, in Lots, EXCEEDINGLY VALUABLE FEE-SIMPLE ESTATES comprising about 4,300 statute Acres of remarkably productive meadow, pasture, and arable land, generally in a high state of cultivation, and in the occupation of a contented and thriving tenantry, many of whom hold, under very old leases (on the falling in of which a large increase of rent will accrue), at rents amounting, in the aggregate, to about £3,500 per annum, but of the present value of upwards of £5,000 a-year. The Estates comprise the lands, and parts of the lands, in the following denominations, viz., Ballynahale, Bolsan, Kilmacat, Ballyacarriggy, Mount Pleasant, (alias Muckenagh,) Cartown, Ballydoole, Shannon-Grove, Drummaher, Summerville, Newmarket, Pallace, Shan Palace, Dromoine, Tubermurry, Ballyshonuckban, Ballycahan, Cragreagh, Graige, Druminoona, and Miltown.
There are some excellent gentlemen's residences on the property, and the farm houses, cabins, and build- ings, are for the most part of a superior description. The soil, with but a few exceptions, is a rich loam of considerable depth on a limestone substratum, yielding the most luxuriant white straw and green crops in all their varieties. The Estates are eligibly situate near to the river Shannon, which affords great facility for ob- taining manure. The City and port of Limerick are about seven miles from the property, which lies midway between the excellent Market Towns of Adare, and Askeaton, in the Barony of Kenry and county of Lime- rick, and the Town of Pallas Kenry forms a portion of the Estate.

BANKERS,
Messrs. GLYN, HALLIFAX, & Co. Sir CLAUDE SCOTT, Bart. MILLS, & Co. and Co.

At the present day, the principles of Life Assurance are so well known, and its advantages so justly appreciated, that little explanation is required. The duty of providing for the contingencies to which life is subject is universally admitted. To all persons engaged in the professions of the Church, Army, and Navy, Law, in public offices; Medical and other Professional men; and all whose incomes depend upon their own exertions the duty of Life Assurance, to enable them to provide at a small cost for their wives and families, is evident and paramount. Among its other advantages may be enumerated—the security offered to Creditors by Assur- ing the Lives of their debtors; Fines payable on re- newal of leases on lives may be provided whenever they may be called for; Loans effected on Life Interest, and money advanced or annuity may be secured; Marriage settlements may be effected.
The great increase of Insurance Societies that has lately occurred, manifests that their utility is more un- derstood, whilst the multiplication of Offices has in- duced competition leading to a ruinous reduction of premium, the consequences of which are too disastrous to contemplate.
The principles on which this Company is founded were adopted after mature consideration; and to the assured it offers the combined advantages of the most successful establishments of its kind that have been formed of late years—moderate rates of premium and a large proportion of profits. The soundness of its prin- ciples, and the extensive influence exercised by the Directors, have placed the Company on a sure basis; and the accumulations have been so considerable as materially to benefit the Policy holders.
The objects of the Company extend to assurances on Lives and Survivorships, and every other contingency, and the purchase of Life Interests and Annuities.
The Rates of Premium adopted by this company have stood the test of twenty years' experience, and are cal- culated on such equitable and correct principles as en- tirely secure the confidence of the public.
Tables are prepared, enabling persons to insure either participating in profits, or at the least possible cost. By the former method they realize all the objects of Life Assurance, and benefit by their own longevity, without the speculative risk of Mutual Assurance Societies.
For Assurances for limited periods, or for securing the Equitable Society's Bonus of 1850, the rates of this Company will be found peculiarly advantageous.
A strict investigation of the affairs of the Company has been made for five years ending 31st December 1841; and of the Profits thereby ascertained to have accrued, four-fifths have been apportioned among the Assured, by the participating scale, for the whole term of Life, or one or more year's standing, in proportion to premium paid by each; and appropriated, at the option of the Assured, either as a Reversionary Bonus, payable when the Policy becomes a claim, or its value applied to the reduction of subsequent premiums. The reversionary Bonus averages 31 per cent. on the premiums paid during the last five years. The equivalent re- duction of Premiums averages nearly 17 per cent. on the annual premiums payable during the next five years. It is worthy of notice, that the profits of the Life Assur- ance Fund are not subject to any diminution from pay- ment of interest to proprietors.
A liberal sum will be given for the surrender of the Company's Policies, whenever the object for which they were effected may be accomplished.
Persons assured by this Company are allowed to reside any where within the limits of Europe; and to pass by Sea, in time of peace, in decked vessels and steam- boats from any part of Europe to another, without any extra charge, or without obtaining permission of the Directors for that purpose.
No extra premium will be charged on the Lives of Military or Naval Men, unless they enter or are called into active service, when the lowest rate consistent with safety will be required.
Premiums, founded on correct data, have been spe- cially calculated for Assurance on Lives of officers in the Military or Civil Service of the East India Company; and the Lives of any person proceeding to any part of the world will be assured on terms commensurate with the risk incurred.
Premiums may be paid, either by even annual pay- ments; by a single payment; or by payments for a limited number of years; and also by an ascending scale.
In addition to the utmost liberality exercised by the Directors in the settlement of claims, the Company will be liable should a person assured die within one month after a renewable Premium becomes due, provided the Premium be paid within the stipulated period.
In the event of dispute (where no fraud is suspected,) the subject thereof will be referred to arbitration.
No entrance-money or fees of any kind are exacted nor any charge made for Policies beyond the cost of the stamps.
Tables, and every information, may be obtained at the Office, and at
