BANKERS,
Messrs. GLYN, HALLIFAX, & Co. Sir CLAUDE SCOTT, Bart. and Co.

At the present day, the principles of Life Assurance are so well known, and its advantages so justly appreciated, that little explanation is required. The duty of providing for the contingencies to which life is subject is universally admitted. To all persons engaged in the professions of the Church, Army, and Navy, Law, in public offices; Medical and other Professional men; and all whose incomes depend upon their own exertions the duty of Life Assurance, to enable them to provide at a small cost for their wives and families, is evident and paramount. Among its other advantages may be enumerated:—the security offered to Creditors by Assuring the Lives of their debtors; Fines payable on renewal of leases on lives may be provided whenever they may be called for; Loans effected on Life Interest, and money advanced or annuity may be secured; Marriage settlements may be effected.

The great increase of Insurance Societies that has lately occurred, manifests that their utility is more understood, whilst the multiplication of Offices has induced competition leading to a ruinous reduction of premium, the consequences of which are too disastrous to contemplate.

The principles on which this Company is founded were adopted after mature consideration; and to the assured it offers the combined advantages of the most successful establishments of its kind that have been formed of late years—moderate rates of premium and a large proportion of profits. The soundness of its principles, and the extensive influence exercised by the Directors, have placed the Company on a sure basis; and the accumulations have been so considerable as materially to benefit the Policy holders.

The objects of the Company extend to assurances on Lives and Survivorships, and every other contingency, and the purchase of Life Interests and Annuities.

The Directors particularly invite the attention of the Public to a new adaptation of the principles of Life Assurance in the Table of Premiums for the Assurance of Sums to be paid, provided a person attain a given age, say 50, 55, or 60. Should, however, the life fall before the stipulated period, the sum assured will be paid to the representatives. By this highly beneficial method, persons may by an investment of a portion of their profits during their years of labour, secure an early retirement from business, with the certainty of provision for their families in the event of premature death.

The Rates of Premium adopted by this company have stood the test of twenty years' experience, and are calculated on such equitable and correct principles as entirely secure the confidence of the public.

Tables are prepared, enabling persons to insure either participating in profits, or at the least possible cost. By the former method they realize all the objects of Life Assurance, and benefit by their own longevity, without the speculative risk of Mutual Assurance Societies.

For Assurances for limited periods, or for securing the Equitable Society's Bonus of 1850, the rates of this Company will be found peculiarly advantageous.

A strict investigation of the affairs of the Company has been made for five years ending 31st December 1841; and of the Profits thereby ascertained to have accrued, four-fifths have been apportioned among the Assured, by the participating scale, for the whole term of Life, or one or more year's standing, in proportion to premium paid by each; and appropriated, at the option of the Assured, either as a Reversionary Bonus, payable when the Policy becomes a claim, or its value applied to the reduction of subsequent premiums. The reversionary Bonus averages 31 per cent. on the premiums paid during the last five years. The equivalent reduction of Premiums averages nearly 17 per cent. on the annual premiums payable during the next five years. It is worthy of notice, that the profits of the Life Assurance Fund are not subject to any diminution from payment of interest to proprietors.

A liberal sum will be given for the surrender of the Company's Policies, whenever the object for which they were effected may be accomplished.

Persons assured by this Company are allowed to reside any where within the limits of Europe; and to pass by Sea, in time of peace, in decked vessels and steam-boats from any part of Europe to another, without any extra charge, or without obtaining permission of the Directors for that purpose.

No extra premium will be charged on the Lives of Military or Naval Men, unless they enter or are called into active service, when the lowest rate consistent with safety will be required.

Premiums, founded on correct data, have been specially calculated for Assurance on Lives of officers in the Military or Civil Service of the East India Company; and the Lives of any person proceeding to any part of the world will be assured on terms commensurate with the risk incurred.

Premiums may be paid, either by even annual payments; or by a single payment; or by payments for a limited number of years; and also by an ascending scale.

In addition to the utmost liberality exercised by the Directors in the settlement of claims, the Company will be liable should a person assured die within one month after a renewable Premium becomes due, provided the Premium be paid within the stipulated period.

In the event of dispute (where no fraud is suspected,) the subject thereof will be referred to arbitration.

No entrance-money or fees of any kind are exacted nor any charge made for Policies beyond the cost of the stamps.

Tables, and every information, may be obtained at the Office, and at

Town Hall, Exchange, Oct. 15.

NOTICE TO THE PUBLIC.

GENERAL POST OFFICE,
Dublin, October, 1844.

WITH a view to secure the safe transmittal of Coin and other valuable Property by Post, the Public are recommended to adopt the following course—Parties having occasion to remit small sums in Cash, are recommended to make use of the Money Order Office, where they will incur no Hazard. Money Orders, for Sums not exceeding Five Pounds, are granted, and paid by every Post Town in the United Kingdom, and by the Chief Office in London, Dublin, and Edinburgh.

Those who may desire to remit Bank Notes or Drafts payable to Bearer, or other Valuable Property, may Register the letter on payment of a Fee of 1s. in addition to the postage: in this case the safest course will be to cut such Notes, &c. in half, sending each half, if possible, by two different Posts. In the case of Bank Notes or Bank Post Bills being sent, the Numbers, Dates, and Amounts should be carefully taken.

Money Orders for any sum not exceeding £2 may be obtained for 3d. each; and for any sum over £2 and not exceeding £5 for 6d.

With the great convenience thus afforded for transmitting small Sums at so low a charge, and the power now given of Registering Letters containing value, it is hoped the Public will no longer forward Letters of value, except in one of these methods.

CHING'S

Worm-Destroying Lozenges

HAVE for Fifty Years held a distinguished reputation, and are still and increasingly patronized by the highest names in rank, respectability, and science, from a personal knowledge of their utility in their own families. It is a fact established by the annual Bills of Mortality, that one half of the Children born are cut off before attaining Seven Years of age, and the fruitful source of this mortality is found to exist in that foul state of the Stomach and Bowels which produces the generation of Worms. The symptoms usually are loss of appetite, a paleness of colour of the face, emaciated and irregular state of the bowels, attended with violent pain. They bring on convulsions; they affect the growth of the body; and they prove fatal by ending in a consumption or decay.

As the certain restorer of Impaired Health, in this critical state, "Ching's Worm-Destroying Lozenges" have long been known and esteemed: mild and safe in their operation, suited to every stage of this period of life, and infallible in their effect, their excellence can be gratefully testified to by many fond and anxious mothers who have successfully had recourse to them.

As an OPENING MEDICINE in Spring and Summer, for Adults as well as for Children, and for foulness of the Stomach and Bowels, and Convulsions, although Worms may not exist, it is allowed to be superior to every other.

CHING'S WORM-DESTROYING LOZENGES are peculiarly adapted and recommended for Exportation to the East and West Indies and warm climates generally, as their virtue remains unimpaired by time.

Sold in packets at 1s. 1/4d., and boxes at 2s. 9d. each, by EDWARDS, 67, St. Paul's Church Yard, London.

IMPORTANT TO FARMERS AND GRAZIEES

GROWTH OF WOOL.

THOMAS BIGG, Chemist, &c., 15, Crawford-street, Portman-square, London, begs to call the attention of Farmers and Graziers to his valuable SHEEP-DIPPING COMPOSITION.

For effectually destroying the Tick, Lice, and all other insects, injurious to the Flock, preventing the alarming attacks of Fly and Shab, and cleansing and purifying the skin, thereby greatly improving the Wool both in Quantity and Quality, and highly contributing to the general health of the animal. He trusts from the established reputation of his Composition, which has now stood the test of several seasons, and has been universally approved, that he may confidently rely on its continued use from year to year, by those friends and patrons whose support he is ambitious to maintain, and whose orders shall at all times have his best attention.

Whilst it cannot be denied that the dipping of Store Sheep and Lambs is very important, a little attention will show that even those to be fattened will derive benefit, inasmuch, as by destroying the Tick, &c. (which are known to harass and irritate the animal) they are more likely to go on well. They may be dipped throughout the year during mild weather, but for economy's sake, and particularly to guard against the fly, the whole flock (no kind of sheep whatever on the farm excepted) should be submitted to the operation during the month of July, or within a month afterwards shearingtime. In consequence of the serious losses some have sustained from the use of preparations of a dangerous nature in dressing their Sheep, the Proprietor of the above Composition begs to assure all Flock Masters and Breeders of Sheep, that no injury can result from the use of his Preparation, if performed according to the printed directions; in proof of which he begs to observe, that Mr. John Matson, an extensive Breeder in the Isle of Sheppy, publicly stated at the Smithfield Club Show of 1839, that during the last three or four years he had dipped about 10,000 Sheep with this composition, and had not lost one.

Sold at 8d. per lb. or in quantities of 100lbs. cask included, being amply sufficient to dress 500 Sheep, £3 3s. Directions for use accompanying each Packet.

"Prospectuses," containing a list of distinguished Patrons, may be had either from the Proprietor direct, or from the following Agents; and may also be seen appended to the Advertisement regularly inserted in the *Mark Lane Express* and *Farmer's Magazine*.

CAUTION.—In consequence of the unprincipled attempts at imitation of certain parties known to the Proprietor, and in order to obtain the Composition genuine, all Flock-Masters and Breeders of Sheep are earnestly requested to see that the Proprietor's Signature (THOMAS BIGG) appears on a Label, which will in future be affixed to each Package, to imitate which is felony. Any authentic information of persons so transgressing will be handsomely rewarded.

AGENTS—Cork, Mr. JOSEPH PAGE, Apothecary Grand Parade; Dublin, Messrs. L. DILLON and SON, Wool Agents, 7, Parliament-street.
