Remarkable Case of Improvement of the Voice. the celebrated Infant Thalia.
 January 15, 1846

Sir—My little girl, known as the Infant suffered lately very severely from a cough, and uvula, so much so that she could not fulfil her social duties. Various remedies were tried in success, until a friend recommended your Pulmonic Wafers. Their beneficial effect was instantly apparent, and a cure speedily effected. The continued use of them, I find materially improves the tone and power of the voice. I could not let this very effectual cure over without informing you of it, in the hope it might make it known for the benefit of other children suffering.
