"HIS Office was established in 1841, and posses
Tables formed on a scientific basis for the As rance of Diseased Lives. The urgent necessity for such an institution may

estimated by the fact that two thirds of the nominal are not assurable as healthy lives, and that about one five of the applicants to other offices is declined examination. And that during the period of a years, as shown at the Annual General Meeting of P. prietors in November last, upwards of 2,000 proposa had been made to the Society, covering Assurances above One Million.

It is the only Company possessing tabulated rates premium for diseased, deduced from extensive data. Increased annuities are granted on unsound lives.

Healthy lives, both at home and in foreign climate are Assured with as much facility and at lower rat than at most other effices; and a capital of Half-Million sterling fully subscribed affords a comple guayantee for the fulfilment of the Company's engag
