will not be delivered before Tuesday, 23d inst. as the interval from the 18th will be necessarily occupied in swearing the members of a new House of Commons, to quality themselves for legislative duty.

IRISH REPRODUCTIVE LOAN FUND INSTITUTION.—A corrected report of the third annual report of the Irish Reproductive Loan Fund institution (incorporated by charter, and presented pursuant to act 6th and 7th Vict. c 91, and 7th and 8th Vict c 38) has been issued. The former copy which was delivered towards the close of September was inaccurate, as the totals of the columns in the "statement" were added improperly. The corrected reprint is therefore to be substituted for the previous one. It appears from the general statement of the funds of the corporation (in trust of the ten county boards of trustees in Connaught and Munster) for the year 1846, that the following are the, amounts of the aggregate funds for the year:—Leitrim £1,877; Sligo £5,324; Mayo £11,310; Roscommon £7,474; Galway £8,653; Tipperary £3,134; Kerry £6,117; Limerick £7,527; and Clare £7,248. From another part of the accounts the following were the sums in hand in savings' banks, and funded by the trustees of the several county boards on the 31st December, 1844 (after deducting the amount of liabilities) :—Leitrim £1,627; Sligo £1,915; Mayo £1,819; Roscommon £119; Galway £150; Tipperary £628; Kerry £4,901; Limerick £156, and Clare £814.

An unexpected obstacle to the announcement of a day mail between Dublin, Parsonstown, and Banagher, has presented itself by the refusal of Mr. Bourne to run his coach in connection with the mail train. A day mail gives an advantage of twenty four hours in replying to letters either to Dublin or Liverpool.

On Saturday last, an inquest was held on the body of James Connors, at the church-yard of Aglish, near Newcastle, by William Cox, Esq., Coroner, in consequence of a report prevailing in the neighbourhood that he was poisoned. The body was disinterred, after being buried for ten day, and a *post mortem* examination having been carefully made by Doctor G. Bolster, Medical Officer of the district Dispensary, it was proved that the man was not poisoned, but died of disease of the heart.—Verdict accordingly.

The Earl of Seafield, Lord Lieutenant of Inverness-shire, has received from the Secretary of State for the Home Department, a warrant, authorising his lordship, in any emergency whereby the public peace may be endangered, to call out the whole, or such part of the Pensioners enrolled within the county, as he may consider necessary, for any term not exceeding 12 days.

Prince Albert has ordered two Irish ploughs from Mr. D. Allen, of Coleraine, for his farm at the Isle of Wight.

The large refiners, condenser, and purifiers for the Nenagh gas works were cast in Limerick, and have been erected by exclusively Irish artists.

In widening the river and draining the adjacent lands near Springfield mills, within a mile of Birr, under the superintendence of Thomes Byrne, Esq., C.E., three hundred men are employed, at one and threepence, and one and sixpence per day, who thereby are enabled to support their families, and are prevented from becoming a burden on an over-taxed union.

Mrs. Stack is elected Matron of the Birr workhouse in the room of her mother, deceased.

As two of Mr. Bank's shop clerks, Clonmel, were proceeding, on Monday night, to the residence of their employer, at Prior Park Terrace, they were attacked by three ruffians, and one of them was severely wounded with stones—he now lies dangerously ill.

Mr. Sadlier's footman, who was in company with
