PRINCIPAL

PRINCIPAL, deemed essential to sound Scholarship in every department commensurals with the demands of the presen enlightened state of society; the foundation of must, of course, be laid in Languages and the Mathematics-its object being to impart a sound scientisc and liberal Education on the most reasonable terms; and effectually to combine the advantages and excelling and effectually to combine the advantages and excellinges of the Public School with those of a givite nature. English, in all its branches, is per pulsar, attended to, for which purpose a Resident Morey pative of Bright and, is engaged. There are are to purpose, besides the Principal Anney! and two Resident Masters, are Visiting Masters and a Drill Magie. Mr. King's reatice upon the system of Education pursued at the Collegiate Institute will be forwarded to Parent and Guardians wishing to intrust their Children to hicare, by examining it, they shall be able to judge howar his improved system of Education is entitled to an share of their kind patronage and support. Young Gentlemen intended for the Engineerig pro

fession will find at the Collegiste Institute th most satisfactory arrangements made for their efficient Instruction in the department, preparatory to the being bound to some of the most Eminent Engineersor their entrance into any of the Engineering Collets, and almost indispensable to their adequately avails themselves of the advantages anticipated from suchpattions. The provision made for this object includes 4 well as the attendance of able Masters in Science am Prawing. as also a full supply of the best Standard Fords on Engineering, together with a complete Aparatus of Maps, Plans, and Sections, and all the improd modern Instruments for Levelling, Surveying, Piling, &c., &c.; and to render those provisions effects, a duly Piting, &c., qualified Gentleman, who has been employ as Assis. tant Engineer in Public Works, will resids the Collegiate Institute to assist the young Gentleen in these Studies, and to superintend the Field Wats, for the practice of which the immediate accesso the surrounding country affords such unusual filties; and while the foundation of a sound professiol knowledge is thus being laid, no exertions shall be filing on the part of the Principal that such Pupil mat the same time, secure that proficiency in every suired branch of a liberal Education which first cli Schools are confessedly best calculated to impart. At the late Examination in the Seni-Mathematical

department, Certificates were adjudg to Masters Montfoot, and Otway, and the Earl Ross; Mathematical Premium to Masters Stoney against. In the Senior Mathematical department theirer Medal to Master Frazer. Mr. King's Pupils by also obtained

distinguished places and high universitionors.

Vacation will terminate on Most; the 3rd of Jastuary 1848. Sohn-place, Parsonarn, Dec. 22d.
