**Farmers should Cultivate Parsnips.**

**GEO. M. SPONG, Seed Merchant.**

56, WILLIAM-STREET, LIMERICK, ADVISES every Farmer in the Country to sow A PARSNIPS; there is no Green Crop so easily cultivated, or attended with more profit. It will be utterly impossible for farmers to till as much Potatoes this year as they would wish, owing to the scarcity of seed and money, and there is no crop so good a substitute for them as the Parsnip, which will produce 3000 stone per acre, while that of Potatoes a little more than 2,000 stone. To induce Farmers to cultivate this valuable root on a large scale, several Tons weight of seed have been laid in at the above House, which will be sold at

One Shilling and Six-pence per Pound.

From 6 to 8lbs of Seeds are required for an Irish Acre, and the best time of sowing is from the 1st of March to the 14th of April. Printed Instructions for sowing the above given gratis.

Wholesale Customers liberally dealt with.
