ley, aged 83 years.

At Kilkeedy Rectory, near Gort, in the 56th year of his age, the Rev. John Lucas, Rector of that parish. His benevolent and Christian disposition and manners were in his life so conspicuous, that in forming an acquaintance he was sure to make a friend. The sorrow of those who claimed that title may be obliterated by the hand of time, but the Omnipotent and Allwho Being who has taken a beloved member from amongst a humerous circle of relatives and friends, can alone pour consolation into the hearts of his relatives, and teach them resignation to the awful flat that stopped him in a career marked by gentleness to all who crossed his path; but to his relatives, by an unceasing display of the most ardent affection, love, and tenderness. He was for nearly 20 years Curate of Kilrush, county Clare, where his zeal and usefulness as an active and faithful minister of the Gospel was respected and highly valued by his parishioners of all religious denominations; and, on his presenlation to the rectory of Kilkeedy, his departure was marked by the most sincere regret of all who admired his most disinterested usefulness, his scriptural and sober piety, which was at once rational without enthusiasm, and sincere, without ostentation. His remains were removed from Kilkeedy to Kilrush, where he was interred on Thursday last, in the presence of the numerous inhabitants of that town and neighbourhood.

Limerick, Ennis & Killale Junction Railway, NOTICE.

26, PATRICK-STREET.

THE Sub Committee of those marcholders in Limerick, Ennis and Killabe railway, anxious have this undertaking wound up, so as to be relieve from all further responsibility, and to have divide amongst them the balance standing to their credit, sire to give notice that a meeting of such sharehold will be held at Cruise's Hotel on Monday next, the proximo, at 2 o'Clock, for the purpose of adopt such means as may be deemed advisable, relative t general meeting to be held at the Parish Comm sioners rooms, on the following Wednesday, by or of the Directors, for the purpose of taking into con deration the disposal of the line to other parties.

The Sub Committee think it well to remind su shareholders as cannot conveniently attend this me ing, that by the Directors' Report and account fur shed on the 17th of May, 1850, a balance stood to credit of the Company, at that date, of £9,169 4s. while at the same time it stated, that all the liabilit did not exceed 300l, (and none have since been curred); 9000l of this money having been invested the Government funds, the interest that has since crued, with the premium it would now realize, if s at the present high prices, might be estima at an additional sum of at least £800 sterling. As account declares there are only 3207 shares issued which the second call has been paid, it may be es mated that if the Company be dissolved and t fund divided the shareholders would be entitled about £3 per share on each of the shares on wh the second call has been paid. If the project we sold as proposed at a meeting held on the 29th of J last to the Great Southern and Western Company £2 per share, the shareholders would not slone transferring to them their property, which cost of £10,000 but they would also be making them present in cash of near £3,500 sterling, as £2 ] share on 3,207 shares would only make £6,414. the line were to be sold, the least the sharehold should get for their property, would be the mar price for the stock actually transferred to the p chasers.

The Sub Committee further beg to state that as Company's Act of Incorporation only gives them priviledge of selling to the Great Southern s Western Company, who have declined to purcha they are in the present position completely powerl to dispose of the line to any other parties, and the are under the impression that a new act cannot obtained for more than a year, the time being n passed for serving the necessary notice for the int duction of private bills during the next session

Parliament.
