

years, and a thorough sense of her responsibilities. Mrs. COATES is the daughter of a Clergyman of the Church of England—the late Rev. JOHN LORR—and, in humble dependence on the Divine Aid, she will seek to train her Pupils for the realities of this life, with a view to the more important realities of another. The best Masters and most efficient Teachers will be employed in every department of a solid and accomplished Education. Her own unremitting attention will be given to the formation of the habits and manners of her Pupils, and to the promotion of their comfort and happiness.

The Investment of money with this Association secures equal advantages to the Savings of the Provident, and the Capital of the affluent, and affords to both the means of realizing the highest rate of interest yielded by first class securities, in which alone the Funds are employed.

The constant demand for advance upon securities of that peculiar class, which are offered almost exclusively to Life Assurance Companies, such as Reversions, Life Interests, &c. enables the Board of Management to employ Capital on more advantageous terms and at higher rates of Interest than could otherwise, with equal safety, be obtained.

The present rate of Interest is five per cent per annum, and this rate will continue to be paid so long as the Assurance department finds the same safe and profitable employment for money.

Interest payable half yearly, in January and July. Money intended for Investment is received daily between the hours of 10 and 4 o'clock, at the office of the association.

Immediate Annuities granted on favorable terms.

**MUTUAL ASSURANCE.**  
Assurances may be effected from £50 to £10,000 on a Single Life.

Entire profits belong to the Assured, and divided annually.

Credit for half the amount of the five first annual Premiums.

Medical men remunerated for their reports.

Liberty to Travel, and Foreign Residence greatly extended.

**NON-PARTICIPATING ASSURANCES.**  
Assurances may be effected on the Non-Participating principle, at very low rates of premium, payable in a variety of ways, to suit the circumstances and convenience of different classes of Assurers.

The Tables for Reversionary and Deferred Annuities are particularly deserving of attention, whether regarded as a means of providing for a particular individual, or as a resource against the casualties of age, and the uncertainties of health and fortune.

EXTRACT FROM THE HALF CREDIT RATES OF PREMIUM FOR AN ASSURANCE OF £100—WITHOUT PROFITS.
