Cusack, or in default to be imprisoned in the
bridewell of Killaloe, each one month with hard
labour; informations were ordered against James
Trehy and Michl. Dalton, paupers in the parent work-
house, for attempting to stab Michl. D. Reddin, As-
sistant-master, with a knife; John Tidings, another
pauper, for assaulting and tearing Mr. Reddin's
clothes, was sentenced to 14 days' imprisonment with
hard labour; Denis Dwyer, also a pauper, for threat-
ening the life of Mr. Edward M. Beauchamp, Deputy
Vice-chairman of the union, was ordered to find bail
to keep the peace for 12 months—not being able to give
the required security, the offender was sent to gaol.

CITY PETTY SESSIONS, YESTERDAY.—There were
seven Magistrates on the Bench. Informations were
ordered against Anne Donovan for stealing
£16 from a countryman named Riordan, who
went to lodge at her house—subsequent to the
decision of the Bench the money was restored through
another party, owing to the exertions of Constable
O'Connor. A case at the suit of Capt. Gorman, *Jane
Black, v. 4 sailors*, for insubordination and disobedience
of orders, on the voyage from Quebec to this port,
occupied the court until four o'clock, the decision
being that each of the accused should forfeit one-third of
their wages (11l. per month) and be imprisoned one
week. The sessions were adjourned to next (this) day.

Thomas Costelloe, Esq. held an inquest yesterday at
Barrington's Hospital, on the body of Michael Walsh,
who died from the effects of a severe scalding, by falling
into a vessel of boiling water, at Cornwallis-street
tan yard. Verdict—"Accidental death."

Clare Island, on the coast of Mayo, has been offi-
cially inspected as a depot for convicts under the new
'Penal Servitude Act.' This island was lately the pro-
perty of Sir Samuel O'Malley, Bart. but now belongs
to the Law Life Assurance Company. It is situated
at the entrance of Clew Bay, and contains about 4,000
acres, the greater portion arable.

The first annual meeting of the Irish Beet Root
Sugar Company was held on Monday, at Coleman-
street buildings, London. The report showed that
from the 3rd March, 1851, to the 31st of May, 1853,
the total receipts were 30,918l.; the disbursements
within same period, 23,779l., leaving a balance of 7,138l.
