

and bears testimony to the zeal of the worthy parish priest, the Rev.

made in the parish of Manister towards the erection of the new church of St. John, when the sum of £85 was received for the Chapel.

During the week a series of lectures, in the Theatre, for the benefit of the Mechanics' Institute. The attendance was as might have been expected—the fame of the lecturer, the nature of the society for whose benefit it was did attend, however, were amply sufficient; brilliant, logical, and convincing they listened with pleasure and the lecture was principally on the subject of "Civilization,"—the influence of the arts by which it was to be maintained, the influence of Art and Science in the advancement of civilization, the Rev. gentleman with some instructive remarks on the science of Geology.

Mr. Cahill has written a series of letters on the subject, in the last of which he denounces Protestantism as a system of religious intolerance, and says, that the worst cause of the successful plunder on which it has resulted from this biblical fact, that it has unchristianized and depopulated Ireland." After using this Mr. Cahill undertakes to prove before the House of Commons that the depopulation of Ireland have resulted from biblical

of Bridge-street, Galway, has received the restitution money, from the Rev.
