Reports of Messrs. Francis, Brett, and  
their position and geological strata.  
within the area, and the whole is int  
rivers and streams, so that the water-p  
haustible, while the sea-frontage affords  
tunity for shipment, either by the form  
to suit circumstances, or by means of th  
well-known ports of Killeries and West

That the western coast of Ireland ab  
description of mineral yield is beyond co  
hitherto there has been but limited exp  
riches. Coal, Iron, Copper, Lead, Silve  
Slate exist throughout. The iron is ed  
to the black band of Lanarkshire, and  
every colour, are almost without riv  
lead ore even, of this locality, contains  
ton than is found in lead ore of this c  
in any other country. The value o  
therefore apparent; and nothing but c  
terprise are required, to develop its en  
which, while proving highly remun  
Shareholders, must necessarily be of gr  
not only to the district, but to Ireland  
in the mineral and general commerce  
Great Britain.

The position of the property as re  
especially to America or Canada, is a  
consideration. It is well known that  
slate from Wales and Cornwall is not  
mand, and vessels are constantly r  
United States without the desired car  
orders cannot be executed under thre  
principal quarries; and yet 350,000 to  
annually there alone. This Company  
the American trade in this article, and  
is required. America will also open a  
tinuous demand for marbles of every  
use and ornament.

Altogether this mineral Estate prese  
and important features for profitabl  
that it has been determined to comm  
forthwith: the Capital at present prop  
at a sum calculated to enable the C  
to prosecute such works as will fairly  
tageous results confidently anticipat  
intended to be increased by the is-u  
as the progress of the works may den  
observed from the Reports, that l  
slate can be operated upon at once, at  
justifies the expectation of large and  
dends, from these sources alone, apar  
valuable metals and minerals in the l

The Act of Parliament under whi  
is incorporated limits the liability o  
der to the amount of the Shares held  
mining enterprise that security to wh
