April 2.

We record with the deepest regret the death of Captain R. W. Neynoe, who sank under a gradual decay of a fine constitution, and died on the 18th at East London, whither he had gone to live and visit the Port for the benefit of his health. He was an officer of the 27th Inniskillings and comrade of Lieutenant-Governor (Colonel Maclean), and subsequent career after quitting the service, he was respected and won the esteem of his friends by his amiability.
