

learned Doctor's pamphlet  
 nt of information contained  
 . It opened up new ground  
 n which to administer the  
 ly considered that it would  
 every opportunity to study  
 tail, and appoint a committee  
 propositions contained in it,  
 to the practicability of fol-  
 integrity (hear, hear). As  
 vote of thanks it was useless  
 for there it ended—to make  
 uation it should be accom-  
 age, otherwise it was evanes-  
 landlords and landowners  
 mark their approbation of  
 labours in their behalf (hear,  
 would be served and the poor  
 ed to by the placing of the  
 erintendence of boards of  
 would not like to send a  
 workhouse hospital.  
 our observations to me, Mr.  
 be presumed that a respecta-  
 medical attendance at home,  
 y his physician. My observa-  
 ly to the poor.  
 it seemed to be an ungracious  
 undertaken to fulfil, but un-  
 would discharge the duties  
 im, but first he should admit  
 devoted his time and his  
 the public was deserving of  
 when he opposed the present  
 some reason stronger than the  
 singular which could induce  
 (hear, hear). He did not  
 of a vote of thanks was the  
 which it was represented to  
 cause every one that was passed  
 tion of the united guardians to  
 or who rendered a service to  
 or to the public at large, and  
 unaccompanied by a "tea"  
 t be considered as a barren  
 ear). It was contended  
 were placed under the  
 d of guardians a great  
 ferred on the poor, but he  
 it would be a great grievance  
 e hospital's closed, and all the  
 country to have to seek relief  
 (hear, hear). Now the his-  
 pital was rather an interest-  
 d in 1780, by a pious and be-  
 the first fever hospital that  
 Empire—it received towards  
 government—it received pre-  
 and from the county. The  
 ty was something like £700,  
 ead over all the patients who  
 dical advice and skilful, and

of the late Rear-Admiral Duguid.
