DISEASE IN DINGLE.—I regret to have t a disease of rather an infectious ten out amongst calves in different ality, and that in every case where it has proved fatal. Mr. Thomas Manof this town, who is an extensive ady lost seven of his early calves by ie Irish Society at its farm, Lough, ers living near the village of Annasthree each; and Mr. Thomas Stack, n all eighteen calves have died up to rning. The disease is most virulent d no prescriptions have had the least g its progress. The animals when atto suffer excruciating torments, cold with a discharge of matter through hey died in the greatest agony. Mr. s were worth an average of £5 a head; uses buried. This strange visitation eat sensation in this district, and fears that it may spread to the old cattle. aid to be not the cattle plague, which ilent in its nature on the Continent Eugland; but an old disease which

ndent of Cork Examiner. DISEASE IN WESTMEATH. - We regret s fearful disease has appeared in our and that several gentlemen have lost the by it within the last few days. It. one of those gentlemen have had any sixing with their cattle; but even if ied to suppose that there was no danas the foreign cattle recently imported d intended for Smithfield market, were ted, and were found to be not in the affected by any sickness. The most sines had been administered to the but without avail. - Westmeath
