DEATHS.

On the 20th of May, at Buenos Ayres, George Barclay, Esq., late of Ballyartney, county Clare. The deceased gentleman possessed a most ingenious mind, and had a great love for the mechanical arts. It appears he built a vessel on the Lower Shannon, and manned it with a crew from Ballyartney, and having sailed to several foreign places in her, he settled down at Buenos Ayres, where he became an extensive landed proprietor and farmer. He there invented a machine for making fences, for which he obtained a patent, and while putting it in operation, he got one of his fingers slightly torn. Tetanus subsequently intervened, and after four days' illness he died. He purchased 27,000 acres of land at Buenos Ayres, and was greatly esteemed by all who knew him there, as well as at home.
