MANFIELD'S Patent Pickles.—Purity.—Flavour.—Mixed Pickles. These celebrated Pickles are prepared with the Purest Malt Vinegar, which, after being delicately spiced, is forced by powerful machinery completely into the vegetables, the air and superfluous moisture having been previously exhausted. They are therefore thoroughly pickled, and are entirely free from pyroligneous or other acids; and platinum being exclusively used for the metal parts of the patented machinery with which the vinegar comes in contact, they are free from the poisonous presence of copper.—Sole Licensees and Manufacturers, John Burgess & Son, 107, Strand.
