THE BIBLE IN MEXICO.

The Rev. Mr. Riley, missionary of the American and Foreign Christian Union, writes from Mexico:—
 "There is a perfect hurricane of Protestant feeling raging against the Romish Church. I feel much as if I had suddenly found myself in the time of the Reformation. The great thing for us to do is to plant Christian churches and institutions here as rapidly as possible. Long have these native Christians looked to their brethren in the United States in hope. May they now have their hopes realized. If the American Church will make an effort worthy of the opportunity Christ has given them in this land, Mexico might write one of the brightest and most deeply interesting pages in missionary history, in the course of the next few years. The influence of the evangelical thought and liberal ideas of the United States, has been gradually leavening this country with an intense desire for something like American civilization to take the place of the idolatry, fanaticism, immorality, tyranny, avarice, pride, false teaching of the Romish priesthood."
 "At length, the Liberal party, writing the words, 'liberty of worship and entire severance of Church and State,' in its constitution, has nationalized the Romish Church property, worth about two hundred millions of dollars; emptied and abolished all convents; processions and ecclesiastical robes in the streets; declared civil marriages to be lawful. To-day, besides these two parties, a third, formed of earnest, evangelical Christians, counting already its martyrs, has been raised up by God's blessing, through the circulation of the Bible."

And again:—"During the last three months, the press has been worked with important results. President, ministers, governors of States, ecclesiastics, deputies to Congress, judges, military men, all classes of society to the poor, have been influenced by this work, and that not in the capital, but also far without."—*The Revival.*

Two Volunteer metropolitan corps (4th Middlesex and 7th Surrey) were censured by the reviewing officers at the inspection on Saturday, Colonel Daubeny complained of the manner in which the officers of the 7th acquitted themselves, and also of the small number of men present.
