

to nurse, which was the course the medical officer preferred, and it would be the cheapest system in the end. He thought the Clerk ought to be directed to advertise for tenders from nurses, not to exceed eight pounds per annum.

Mr. Pierce O'Brien considered the most suitable course would be to send the children to be nursed in the vicinity of the town.

Mr. Moran thought it would be cheaper to do so than to be paying hired nurses.

The Clerk was directed to advertise for tenders as suggested.

A letter was then read from the Commissioners recommending that the children be sent to nurses outside the house, as most conducive to health.

A report was read from the Inspector of the National Board of Education, which stated that the education of the pupils had not been neglected, but the contrary. Still the Inspector was of opinion that discipline had been endangered in consequence of an impression prevailing amongst the schoolboys that they could not be punished.

On reference to minutes of former proceedings it was ascertained that the schoolmaster had received power from the Board to inflict chastisement, such as the rules of the Commissioners permitted of.

The Board immediately after adjourned.

**FAIR OF COROPIN.**—To-day the usual Autumn fair was held. There was a reasonable supply of stock produced for sale, but prices did not exceed the former standard, as the demand was but moderate. Two-years-old averaged from £10 to £15; yearlings from £5 to £8; fat sheep from 45s. to 55s. each, and lambs from 20s. to 32s. 6d.; bacon pigs produced from 55s. to 56s. per cwt.

**HARVEST HOME.**—On last evening a large and numerous attended harvest-home was given by Sir Augustine Fitzgerald, Bart., at Carrigoran, near Carrig-on-Fergus. Some of the inhabitants of the latter village were present on the occasion, and dancing was kept up during the festivities with much animation.

**POOR-LAW INQUIRY.**—On yesterday an inquiry was held at Newmarket-on-Fergus, before Mr. Burke, P.L.I., and Dr. Hill, Medical P.L.I., into a charge preferred by a man named Conlon against Dr. Courtenay for not attending his son regularly during his illness. The charge was denied by the medical officer, who produced evidence to prove the allegation was unfounded. It is stated on competent authority that before the depositions had concluded the gentlemen holding the inquiry were satisfied with the conduct of the medical officer, inasmuch as they cut short the proceedings.

#### TIPPERARY INTELLIGENCE.

(FROM OUR CORRESPONDENT.)

**MONTHLY FAIR.**—There was a moderate supply of pigs on Monday, most of which realised fair prices, and early sales were effected. On the following day the cattle fair was held as usual, and a poor supply of fat beasts seen on the green. Mouth and foot disease being still prevalent in the district, will explain the cause of such falling off in the supply.

**AGRICULTURAL SOCIETY'S SHOW.**—This annual meeting was held at the mere of the market-house, as in former years, and, considering the disease which prevails among cattle, should be looked upon as a successful meeting. There were 230 entries this year, which, compared with the numbers in 1869, shows a falling off of at least a hundred. Mr. Lowe's bull gained first prize in Class A. The same gentleman's cow took first prize. His heifer carried off first prize in section 4. In fact most of the prizes in this class went to Kilshane. In Class B, Mr. Lowe was successful with his sheep. Mr. M. Sadlier, with his stallion "Roebuck" took the prize in Class D. C. W. Massy, Esq., won the first and second prizes for brood mares. This exhibitor also won Mr. Dyer's challenge cup, with a brood mare, having foal at foot. The dinner was presided over by Capt. Dawson, and passed off in a pleasant manner.

**A DISTINGUISHED VISITOR TO BELFAST.**—Amongst the list of arrivals at the Imperial Hotel, in this town, will be found the name of a distinguished Frenchman who played a conspicuous part in the closing act of the Imperial drama—being a no less noted personage than the Count de Palikao (General Montauban), who succeeded M. Ollivier as Prime Minister, and then in turn became the victim of fresh disasters—of the greatest yet—namely, the fall of the Empire.—*Belfast News-Letter.*

ties of the Cortes will appear to-morrow, expressing a hope that a Republic will be established by legal means and with the concurrence of the Cortes. The Legislatif insist upon the assembling of the Cortes,

#### THE PROSPECTS OF PEACE,

The *Telegraph's* Paris correspondent writes that very well informed persons are hopeful of peace, but the King of Prussia is said to be resolved to give no peace, until his army breaks ground before Paris. The correspondent adds that negotiations are going on more actively than ever. England has taken her place at the head of the neutral power, and Lord Lyons has definitely abandoned the idea of withdrawing from the capital. The correspondent also describes the review of 140,000 armed citizens by General Trochu yesterday.

#### THE EMPEROR NAPOLEON.

The official report of the Crown Prince's army states that the Emperor Napoleon when in the Prussian camp expressed a wish not to be sent back to Sedan, and asked for a strong military escort to accompany him to Germany.

#### A UNITED GERMAN PARLIAMENT.

The principal German Cabinets are making preparations for the establishment of a common government and parliament for all Germany.

#### THE POPE AND THE WAR.

The Pope has expressed his intention to repair to Strasbourg or Innsbruck.

A formidable artillery has been sent to Toul and Paris.

#### THE UNITED STATES AND MEDIATION.

The *Times'* Philadelphia correspondent says the United States will only offer good offices when asked by the belligerents, otherwise they will hold aloof.

#### THE TERMS OF PEACE.

The Paris correspondent of the *Morning Post*, writing on Monday night, says that the Prussian terms of peace are now said to be these three:—

1. Five milliards of francs—£200,000,000 indemnity.
2. The cession of half the French fleet.
3. The entry of the Prussian army into, and the signature of a treaty of peace in Paris.

The first two conditions present no great difficulties. The French would willingly pay a money indemnity, and the exact amount would be a mere matter of bargain, through which a middle course could easily be reached. Nor would they make any difficulty about the fleet, for whatever may happen when once peace is re-established, they will no longer endure the charges necessary to keep up a large fleet, any more than they will endure an enormous standing army. The third condition, will never be so much as listened to till the Prussians have won their way into the capital by sheer force of arms, and the chances of successful resistance increase with every hour.

#### RAILWAY COMMUNICATION SUSPENDED—ENGAGEMENT BETWEEN UHLANS AND FRANCS-TIREURS—FIRING HEARD NEAR MELUN.

Paris, Wednesday, 4.30.

Since yesterday evening communication by rail between Paris and Lyons has been suspended as a precautionary step, in consequence of an engagement which took place yesterday between some Uhlans and Franks-Tireurs, near Monteren. The

Government. An the guns have to pass Mr. Jacob's" inspection, and but for the scarcity of the real Boxer cartridge—the only one accepted—a large number would be shipped off. There are several parcels of guns ready, but awaiting cartridges. Up to the present time 1,000 Chassepots have been sent to France, and about 6,000 Sniders.—*Daily News.*
