rs will meet for November, Thursday, 3rd, Rathmore Creora Cross; Thursday, ay, 15th, Licadoun; Friday, Monday, 21st, Fanningstown allyneety Cross; Monday, e. Hour—Half-past eleven

ges took place among the during the past month: are gazetted to commissions by purchase, and two non- without purchase. Four, six lieutenants, and five

teen samples of wine, and he laughed at the propo- sition of Mr. Ryan, for if he tasted so many his own taste would be vitiated. Let the Board order up the wine rejected and taste it, and say whether it was good or not.

Alderman O'Callaghan thought it was not respect- ful to Dr. Brodie to leave the matter to a committee, for if he conscientiously declared the wine not to be equal to sample the Board ought to be satisfied (as suggested by Mr. Ryan).

After some further discussion it was agreed that the Board should test the wine.

Dr. O'Sullivan complained that the guardians testing the wine were informed of the bottles con- taining the standard samples, and he thought it would be better to appoint a committee.

Mr. Cleary said from the remarks of Dr. O'Sulli- van he would refuse to express any opinion.

Alderman O'Callaghan, Mr. Frost, and Mr. Synan declared that they did not know which was the standard samples.

After a passage of arms between Mr. Cleary and Dr. O'Sullivan, the former indignantly left the room, and it was agreed to have the subject referred to a committee—the samples to be placed in black bottles.

**THE CASE OF DR. PORTER.**

Dr. O'Sullivan inquired whether any steps had been taken on a resolution which was proposed by him and passed at the board some time ago, in refer- ence to the case of Dr. Porter, late medical officer of the Castle-Connell dispensary district. The sub- stance of his resolution was, that the county and city members should be asked to bring the case be- fore Parliament.

The Clerk stated that Parliament will not meet for some time yet, and it was no use to take any steps in the matter until then.

Dr. O'Sullivan said it would be necessary to com- municate with the members in order to have them made up on the subject; and moved that the resolu- tion be acted on.

The Clerk was then directed to send copies of Dr. O'Sullivan's resolution to the county and city members.

**REFRACTORY INMATES.**

The Master reported that some refractory in- mates had created a sort of mutiny at breakfast this morning, several of them pitching the trays full of strabout at each other; and he mentioned the conduct of an able-bodied inmate as the most re- fractory.

This inmate was ordered to be sent before the magistrates at Petty Sessions.

The Board then adjourned.

**CLARE INTELLIGENCE.**

(FROM OUR CORRESPONDENT.)

Ennis, Wednesday Evening.

**ENNIS BOARD OF GUARDIANS.**

To-day the ordinary weekly meeting of the Board was held—Augustine Butler, Esq., D.L., occupied the chair.

The other guardians present were—Major Stud- dert, J.P.; Francis N. Keane, J.P.; Pierce O'Brien, J.P.; Thomas Greene, J.P.; Patrick Barry, J.P.; Thomas Studdert, John Leary, John Cullinan, Henry Faircloth, John W. Coffey, Wm. Halpin, Arthur Kelly, John M'Mahon, Denis Quin- livan, Michael Moran, James M'Namara, Daniel O'Keefe, Patrick Power, and Michael Butler.

The Clerk read minutes of last day's proceed- ings, which were affirmed by the Chairman.

Supplies of clothing, on the requisition of the matron, were ordered; and repairs in the house were directed to be executed.

The state of the house was announced to be:—In the house on Saturday last, 392; general average cost, 2s. 10½d.; fever hospital, 3s. 7½d.; infir- mary, 3s. 3½d.

The Clerk read the letter of the Commissioners requiring the resignation of the Master, the con- sideration of which had been adjourned on last day.

The Master read a statement, in which he alleged that he had not intended at any time to place the responsibility of rejecting meat on any other officer, as had been supposed by the Commissioners. He would promise, if retained in his office, to discharge the duties of his office with increased attention. As to the aid he had received from an inmate in the keeping of the accounts, he asserted that the pen of the inmate was in the habit of being employed in almost every workhouse in Ireland.

Mr. Greene then proposed that, though according to the letter of the Commissioners inaptitude may have been observable in the management of the Master up to the present, yet the guardians would

with, with trimmings a la mode. I think cos- tumes are worn much after the military style, and muffs are, if possible, more numerous than ever. Balls are given daily in abundance to the Germans; but they have not yet replied to those civilities. Ball-dresses are uniformly uninteresting, but some of the balls are brilliant affairs enough. On the whole, earnestness has got into Fawre, and every- thing à l'Impératrice has gone out.—Blarney.

**BIRTHS.**

Wyse—On November the 1st, at Upper Cecil-street, Limerick, the wife of William C. B. Wyse, Esq., of a son.
