deavouring to prevent him from engaging in conflict with another man. The accused was sentenced to a month with hard labour. There being no other case of importance on the books the Court, after the disposal of routine business, adjourned.

**THE CUSTOMS.**—Mr. Joseph Ryan, a native of this town, and for many years Tidewaiter in Liverpool, has been promoted to the rank of Tide Surveyor, amongst seventy-five applicants who competed for the vacancies at the disposal of the Customs Board. Mr. Ryan has been an old and efficient officer, and no doubt has been rewarded according to his merits.

**BALLYCOORE RACES.**—The arrangements on the part of the Stewards, and Mr. Hill, chairman of the Town Commissioners, to render the meet on the 22nd and 23rd inst. as attractive as possible, are such as lead to the conviction that the ancient reputation of Ballycoore will be amply sustained, and that every accommodation necessary for the convenience and advantage of the public will be amply afforded.

**MODERN MACHINERY.**—A machine, value for about £200, intended to be used for breaking stones by wholesale, has been imported by Mr. T. Collins, of Corofin. It is likely other road contractors will follow his example, unless midnight legislation be called into requisition to forbid the adoption of such enterprising experiments, as in the case of mowing machines, which last week suffered so severely at the hands of anti-improvement gentry, whose focus appears to be the vicinity of Newmarket-on-Fergus.

**THE WEATHER.**—Hay-making has made rapid progress during the week, and in many instances hay supposed to have been lost has been completely secured. The potatoe blight is not making way in Clare to any extent equal to what alarmists have been circulating.

**ENNIS MEETING.**  
Ennis Handicap of 100 sovs.  
Mr. H. Blake's Erin, aged, 10 stone, should have been added to those already published.

**KILRUSH INTELLIGENCE.**  
(FROM OUR CORRESPONDENT.)  
Friday.  
**PETTY SESSIONS.**—Magistrates present—Colonel C. M. Vandeleur, M.P., Chairman; R. H. Borough, Captain Studdert, Fort House; Captain Studdert, Clonderlaw, Knock; M. O'Gorman, Randal W. Borough, and J. M'Cullagh, R.M.  
Their worships were engaged for a long time in investigating some critical fishery cases.  
Two boys were summoned for taking the bark off some valuable trees in Colonel Vandeleur's demesne.  
The Chairman gave them a very kind advice, but would not ask for at present any than costs punishment.

**REGATTA.**—Our forthcoming regatta gives every sign of being a real success, and it is expected that some boats from Limerick will contest for the unusually large prizes offered this year. The "land sports" will also be very interesting on this occasion.

**BUTTER MARKET.**—On Wednesday our market was not quite so good as usual, owing chiefly to the late wet weather we have had. 500 firkins were sold, at the average prices, ranging from 69s to 73s for three-quarter firkins.  
The few real good days we have had lately have done a great deal in improving our harvest prospects. I am much afraid that turf cannot be well dried. Hay will not be so well saved as on former years, but in all other respects we have promise of a good and luxuriant harvest.

Paris, Friday Evening.

The "Francais" of this evening announces that M. Thiers has explained to the Budget Committee the necessity for considerable armaments, in order to provide against the possibility of war. The number of Infantry regiments will be 140, and the minimum figure of the ordinary effective forces will exceed five hundred thousand men. M. Thiers considers that fresh sacrifices are necessary for this object, and that the expenditure would have to be not less than 100,000,000 francs. The "Francais" adds that there was the question of increasing to 800,000,000 francs the amount to be raised for the new taxes, including the one hundred million asked for by M. Thiers. Everything leads to the belief that the discussion on the Budget for 1872 will raise considerable difficulties.

**THE NATIONAL ASSEMBLY.**  
Versailles, Friday Evening.

In to-day's sitting of the National Assembly the reporter of the Budget Committee opposed the tax upon private equipages and horses. The Chamber discussed the bill augmenting the amounts charged for hunting licences. The committee also announced that it would propose to double the price of powder. The discussion upon the new register and stamp duty was then resumed.

**THE BALLOT BILL.**  
The rejection by the Lords of the Ballot Bill by 97 votes against 48 leads the *Times* to blame the Ministry for proceeding with the measure when they knew that defeat was inevitable. If the bill, instead of being pushed forward, had been suspended, the cause of the Ballot would have been much further advanced than it is now.  
The *Post* thinks that amongst the many mistakes the Government have committed during the session the obstinacy by which they have insisted on passing the Ballot Bill is, perhaps, the greatest.  
The *Standard* considers that when only 48 Whig Peers can be found to vote for the great Government bill of the session, there is plainly very little to be said in its favour.

**DUBLIN CATTLE MARKET.**  
L. Cuffe and Sons' Report.  
5, Smithfield, Dublin, Aug. 10, 1871.  
Notwithstanding a considerable decrease in the numbers of sheep and cattle, yet influenced by the excessive heat of the weather, our market cannot be reported better to-day. Prime meat fully maintained last week's rates but inferior descriptions not in such demand, and in some cases a reduction had to be submitted to.  
Prices—Prime beef, 67s 6d to 72s 6d per cwt.; secondary and inferior, 57s 6d to 62s 6d per cwt. Prime wether, 8d to 9d per lb.; ewe, 7d to 8d per lb. Lambs, 20s to 40s each.  
Wool—Hog, 19d. to 20d per lb; wether, 18d to 19d do.  
Supply—Beasts, 2,035; sheep, 7,380.

**LIVERPOOL CORN MARKET—YESTERDAY.**  
There was only a moderate inquiry for wheat of any description, white and the better qualities of red fully supporting Tuesday's rates, while inferior samples of the latter were obtainable for rather less money. Flour dull; and to make progress in sales some reduction had to be taken. Beans 6d. per brl. cheaper. Oats and oatmeal steady. Indian corn offered less feely, and sales to moderate extent. Quotations unaltered, but prices stiffening.

**LONDON CORN MARKET—YESTERDAY.**  
Brilliant harvest weather. Cutting progressing rapidly throughout some districts. Market consequently quiet. English and foreign wheat cheaper for red, but firm for white qualities. Flour dull; American 6d. cheaper. Barley firm. Oats steady. Maize 6d. cheaper. Beans and peas dull. British wheat 520 qrs; foreign, 45,500 qrs; barley, 20,670 qrs; oats, 75,250; maize, 18,320; flour, 1,250 sacks.
