LEEDS, THURSDAY NIGHT.—Whether Sir Charles Dilke is really repentant, or alarmed by the desertion of his principal supporters, he has eaten the leek publicly this evening, before an audience estimated at between 3,000 and 4,000 persons. Referring to his recent criticisms on her Majesty's expenditure, Sir Charles said he had never attacked Royalty, but only recommended reform in the present excessive expenditure. No vote was passed.

THE CHINESE EMBASSY TO FRANCE. Versailles, Thursday Evening.

At two p.m. the Chinese Embassy was received with the usual ceremony by M. Thiers who was surrounded by the members of his Cabinet the Minister of the Interior representing the Ministers of Foreign Affairs, War, and Marine. The Ambassador expressed his regret, in the name of the Emperor of China for the massacres at Tien-Tsin, adding that acts of repression had been exercised, and that 24 guilty persons had been beheaded. He spoke of the Emperor's desire to keep up friendly relations with France. M. Thiers replied that the duty of the head of the State was not only to lead the people but to repress passions and maintain order with firmness. M. Thiers expressed a wish to see a Chinese Embassy permanently established in France.

M. THIERS' REPLY TO THE CHINESE EMBASSY. Versailles, Friday.

At the reception of the Chinese Embassy yesterday, M. Thiers, in reply to the ambassadors, said: "I received the excuse of the Emperor, but the Chinese Government must besides give proof to the missionaries that it will cause them to be respected by the people and by the magistrates. Above all, our diplomatic agents and consuls must be respected, and this is a necessary conditional order not to compromise the relations existing between the West and the East." M. Thiers added that he would send a reply to the Emperor by the French Minister at Peking.

THE LICENSING SYSTEM.

Now that elections begin to turn on the licensing system, the Daily News contends that the question must be settled without delay. It is of opinion that the regulation and gradual restriction of the liquor traffic, and not its destruction, is the legitimate object of legislation.

The Telegraph believes that a union between the Conservative party and the brewing interest would carry most of the boroughs at a general election. It therefore analyses the whole licensing question, denounces the Permissive Bill, and says what is wanted is to consolidate, slightly improve, and, above all things enforce the existing law.

The Times admits that the question is full of difficulties, though none of them need be thought insurmountable.

LIVERPOOL CORN MARKET—YESTERDAY.

There was only a poor attendance, and the business in wheat was limited at about last Tuesday's prices. Flour is quiet, and nominally unchanged. ...the latter being admirably displayed in proposing the health of his principal guest, the Mayor of Limerick, as well as in that of his Worship of Waterford. The Mayor of Limerick, who is a master of oratory, made a capital reply, and proposed, in fitting terms, the health of his host, Mr. Ryan, whom he had known for many years as an upright and worthy man, well entitled to the confidence and respect which he knew were entertained for him both in Waterford and Limerick. The health of the Mayor of Waterford, and that of the accomplished and jovial vice-president, Capt. Johnson, J.P., having received fitting honors, the remainder of the evening was spent in mirth and song, in which Messrs. Delahunty, M.P., Irwin, M. J. Cox, and Dr. Scott, shone conspicuously. The Mayor of Limerick left for home by the night mail, but the remainder of the company did not separate till an advanced hour, after spending one of the most enjoyable of evenings it would be possible to provide in so short a space of time.—Waterford News.
