A CARGO of hides has just been imported from the River Plate district for Alderman O'Callaghan's (J.P.) establishment, worth between £15,000 and £20,000. It is one of the largest of the kind ever imported into this country. And we may add, too, that the establishment of our respected fellow citizen is the most complete and extensive manufactory in Ireland.

DEATH BY DROWNING.

WHILST a child named Charles Doherty was playing near the fire in his father's house on Monday morning, his clothes caught fire, and he was so severely burned that death soon after ensued. An inquest was subsequently held on the body by Mr M J De Courcy, City Coroner, and a verdict of Accidental Death was returned.

SUDDEN DEATH.

ON Sunday last, whilst a woman named Catherine Donovan was returning from Mass, she was suddenly taken ill, and died in a few minutes afterwards, notwithstanding that she received every aid. An inquest was held on the body by Mr De Courcy, City Coroner, and a verdict was returned that the poor woman died from Disease of the Heart.

THE WEATHER.

A DENSE fog enveloped the city on Monday afternoon. It began about half-past two o'clock, and at four it was so thick that it was impossible to see more than half the distance across a street way. The gas was lighted in the various places of business, and the private vehicles that carried lamps had them illuminated, but with very little effect, the glare was so dimmed by the vapour. A woman was nearly run over in George street, and many persons had narrow escapes in the same way. All river traffic was suspended. The fog did not clear off before midnight.

DEATH FROM REPLETION.

ON Saturday evening last a sailor named John Lundby, belonging to the Messrs Spaight's ship "Jessie," just home with timber from Quebec, went to partake of dinner, which he had ordered at a public house in Upper Henry street. He was extremely hungry, and ate an enormous quantity. The result was that immediately afterwards he was attacked with pains in the stomach, and after brief but great suffering, he died. An inquest was held by Mr De Courcy, City Coroner, at which Dr Enright was examined, and also Captain Roberts, commander of the vessel. It appeared that the man was of sober habits, and a very steady sailor. There was a verdict come to that he died of apoplexy.

ELECTION FOR THE SHANNON WARD.

THE election of a Town Councillor for the Shannon Ward was held at the Town Hall yesterday. Alderman Myles presiding. The result was that Mr Donat C O'Brien, Upper Cecil street, was returned by a majority of 39 over Mr M'Quaid, George street. Mr M J De Courcy, solr, acted for Mr O'Brien, and Mr Alfred Wallace, solr, for Mr M'Quaid. A very virulent production, rarely, we are happy to say, paralleled in this city, was put in circulation early in the day, and sent by post to many of the voters in the ward. It grossly
