

at Massy, R.M., the Sub-Sheriff of Mr. William Harnett, and two bailiffs. It is said that the policemen have been injured, and the most conflicting reports float as to the cause of their injury. Ulysses Fitzmaurice, Physician to the Hospital, Dr. O'Halloran, and Mr Redmond are in constant attendance on the injured. It is suspected that their approach to the premises was anticipated, and that their aid for their destruction. Be all this it cannot be gainsaid but that at least maim them existed.

ANOTHER ACCOUNT.
The Sub-Sheriff, accompanied by a constable and military, under the command of R. A. Massy, R.M., proceeded to the premises for the purpose of evicting the tenants who declined to pay their rent. All was settled, with the exception of one man, who was put out. While on their way to the premises one of the ambulance men was capsized on the road, and three of the men who occupied it were rather badly injured. They were brought into Listowel and placed in the district hospital, when it was found that nothing serious happened to them during the proceeding which they received.

ORDINARY CIRCUMSTANCES.
The constabulary and constabulary were returned to their posts yesterday, after an evicting "scene," witnessed by a Sub-constable (who, I understand, is on furlough,) who challenged them to "stand" and "halt." He was immediately arrested and conveyed to the local constabulary. Secret drilling is carried on by the police. Police patrols parade the streets each night.
