pany, accordingly the Sphenoiders' pany have consented to the sale of noo and Limerick estates to this (contiguity and other advantages of t estate, enabling the whole to be efficiently and economically.

On ATTIKUNNOO, Mr Gifford rep Directors of the South Indian Gold pany, under date 8th November, lows:—

"I have examined the Attikunnoo find there is a very large and massiv has been extensively wrought by workers, the bearing of which is ab of north and east of south. I have t samples, and, having crushed and v gave splendid results. This reef, in is second to none in the district for value. There is a good stream of w through the Estate even in the drye the year, and runs within 200 yard which offers great facilities for reduc

The TREVELYAN estate contains re merous old workings, marked on the map by Mr Brough Smyth, who w property in his Parliamentary Report

"The outcrops of quartz on th Estate are most probably connected. stated, with the reef which appears r vident Bungalow.

"The reef proper comes to the s twenty-seven chains north-easterly of low, and along the line of reef south some distance there are several old tween these and the Bungalow ther strong leader, which was cut when th were ground-sluicing. Quartz with found by Mr J Hodgson Williams in and shown to me.

"In three other places, as shown i Korumbar employed occasionally by and for a short time by me got gold sluicing.

"About five chains south-easter Bungalow rather coarse gold, as well was washed out of the stones and ea the slope of the hill, and about t from the house the debris and detri the banks and bed of a small stream

"Mr Williams was active in pros the aid of Korumbar miners, who w the direction of an old Korumbar n 'Matha,' and thus the occurrence of lurge area has been proved.

"Mining operations could be cond locality at no very great expense."
