got together.

German military authorities are about to  
some experiment's in the way of aerial  
does. An ordinary war balloon is to be  
tched, fitted with a machinery resembling  
of torpedo boats, by means of which the  
re could be projected on the troops beneath.  
project is considered feasible, and the day  
ot be very far distant when we shall have  
s fighting in the air. There seems to be no  
to the invention and production of instru-  
of death and destruction.

Mr W Barrington, C.E, 84, George street, left  
town this evening for Galway, to hold inquiries  
there for the Board of Works into the engineer-  
ing merits of the several Light Railway and  
Tramway schemes proposed between Galway,  
Outerard, and Clifden.

We have been requested to state there will be  
Divine Service with Sermon held in St Michael's  
Church every Wednesday evening at 8 o'clock.

Mr Coroner DeCoursey held an inquest to-day  
at Barrington's Hospital on the body of a  
woman named Jane Tobin, who fell down stairs

The Earl of Dunraven intends, on the 18th of  
February, to call attention to the suspension of  
Lord Rossmore, and to move "That, in the  
opinion of this House the removal of Lord Ros-  
smore from the Commission of the Peace in  
Ireland was not justified by the facts of the case,  
and is calculated to discourage the loyal popula-  
tion of that portion of the United Kingdom."

B.A, Wesleyan Minister, has accepted a cordial  
invitation to remain on the Limerick George-

of the church, including the Sunday collections  
and quarterage, show a satisfactory increase,  
and, in addition to meeting all local claims, a  
sum of £90 has been contributed to connexional  
funds.

A report was widely circulated about the city  
this afternoon, to the effect, that the steamship  
"Vale of Calder," which plies between this port  
and Liverpool, had been lost. On making  
enquiries we ascertained that there was no  
foundation whatever for the rumour, as no  
adverse information of any kind has been received  
by the local agent respecting the vessel, which is  
supposed to be at Liverpool.

We understand the great Temperance Lecturer,  
Mr T E Murphy, whose addresses in this city  
some months since were productive of so much  
good, is again about to give three lectures in the  
Theatre and elsewhere, either during the last  
week of the current month or the first week of  
March. Mr W A Boyd, the indefatigable local  
corresponding secretary of the Irish Temperance

Murphy's second visit even more successful than  
his first.
