The , ran over one thousand nights at tre, London, while the second has at the Globe Theatre, London, undred times. How often they uced in the provinces, it would be ; but it is an easy matter to cess—that has been undoubted. the great success of these farcies in the fact that, while abound-; dialogue, comical complications and real genuine fun, these good not the outcome of double usual motif of the French ich, for some years, had an ay on the British stage. Secretary," adapted from Van Bibliothekar," by Chas. H. Hawly free from the objectionable vaudeville, and last night, when Spalding renewed his acquaint-

imerick people, its success could. Salvos of applause followed ation or good hit, and at the end principal performers were rehur Helmore, who took the partert Spalding, a most meek indinal long suffering, accustomed to heard, is perhaps one of the best elling. His inimitable "D'ye lnyes" fairly brought down the ser leading part (for there are ermole, a plethoric, choleric, earted old contlement of server.

reassembling they were addressed by the Rev Mr O'Connell, rector, C.SS.R. He congratulated them on the great success which had attended their brief pilgrimage, and on behalf of the people and of the Redemptorist Fathers, returned their warm and heartfelt thanks to his Lordship the Bishop for attending there that day, and also to the Jesuit Fathers for the cordial reception they had accorded them. Shortly after the procession turned homewards, reaching town at half-past six.

DEATH OF MRS T. F. BRADY.

The Irish Times, referring to the death of Mrs Brady, says :- We regret greatly to find in our obituary column the notice of the death of Mrs Brady, wife of our most useful and philanthropic and indefatigable fellow-citizen, Mr T. F. Brady, Inspector of Fisheries. The deceased lady was no ordinary person, and her many acts of charity to the poor. Western people will be recollected gratefully and sorrowingly by them. She died when in the midst of charitable work, i. which she was in every way a helpmeet for her earnest and active husband. It is but a short time since Mrs Brady went round the coast, and witnessing the sad distress of the people gave freely out of her own pocket money for their relief. She distributed nets and fishing gear to several poor fishermen on that occasion. More lately she was occupied in collecting contributions to build a bridge over a tidal ravine across which the poor living beyond it could only go with danger, diffi-culty, and loss. Her appeal in our own columns for this purpose brought her a sum of £100, and had she lived she would have seen one of her fondest hopes realised. She was ever foremost in charity, and was recently a member of the Ladies' Committee for supplying clothing to the Western islands. Mrs Brady also took a prominent part in the Society for the Prevention of Cruelty to Animals, and much assisted the late bazaar of that society. The poor have lost in her a friend who was quite as zealous on their behalf as Mr Brady himself—the "Fisherman's Friend." When a lady so distinguished for charity, energy, and self-sacrifice is removed from the society where her influence was widely felt for good, it is but natural that public expression should be given to the esteem entertained for her during life, and to the grief which the intimidation of her decease causes to all who knew her in the distressed districts.

THE LIMERICK WATER QUESTION. TO THE EDITOR OF THE LIMERICK CHRONICLE.

SIR,—I would refer your readers to a report of the proceedings of the National Association of British and Irish Millers, in the Dublin papers of Saturday last. The question discussed, viz, "the best water motor," is of considerable interest to the people of this city, considering all that has transpired re the Water Supply. At the conference of the Association above alluded to, papers were read by several gentlemen, and the concensus of opinion was, that as a water motor, the turbine was undoubtedly the best. Now, as Corporations should be eelectic for the sake of the ratepayers, I would recommend our Town Council, or Water Committee, to at least consider the matter.

It will be remembered that when the various, water schemes were propounded and submitted there was one among them which was only looked askance at on account of the expense it must
