The Robbergs in Ennis.—Ennis will have unpleasant recollections associated with it in the memories of the six "crooks," to use the expressive phrase of our cousins across the water, who constituted the swell mob gang so quickly and eleverly arrested by the Ennis police in connection with the Market-street robbery on the 30th July last. These light fingered gentry were put on their trial before County Court Judge Kelly, at the Quarter Sessions, on Friday, and after a lengthened hearing sentenced, Rooney, the eldest of the prisoners, a man over 50 years of age to 10 years imprisonment and the others to 5 years each. One only of the prisoners was professionally represented, the others conducted their own defence, and displayed marked ingenuity in their cross-examination of the several witnesses.—

DEATH OF MR. L. KELLY, T.C.-We regret to announce the death of Mr Laurence Kelly. which took place to-day at his residence. Moylish House. The news was received in town with astonishment, for no later than yesterday was Mr Kelly amongst us in apparently fair health. His death took place about eight o'clock this morning after a brief illness. The deceased was for over a quarter of a century a member of the Town Council as representative of the Castle Ward; he invariably went in for retrenchment and was ever a zealous protector of the interests of the ratepayers. Some years ago he took a conspicuous part in Parliamentary elections, but latterly did not display an active concern in political matters. Mr Kelly was a most successful business man, and a most useful citizen, while as a public man his business like views were received with every respect and esteem. He was a man of kind and genial disposition, and a staunch but unostentations supporter of local charities. His unexpected demise, though at the ripe age of 80 years, will, we are sure, be heard of with unfeigned regret by all classes and creeds of the citizens amongst whom he had moved so long. The funeral will take place on Thursday morning.

"CATERINA"—Speaking of this excellent work written by Mr J Fogerty, of this city, the Illustrated London News says.—"It is a pleasure to recommend, with such confidence as we feel in this instance, one of the brightest and most agreeable novels recently published. The author has that power which is the first and last condition of good novel-writing—the faculty of creating life-like, individual personalities, and causing them mutually to influence one another in all their conversation and behaviour.
