hourishing a condition, and still maintaining the
character which it had always borne as one of
the most efficient industrial institutions of the
kind in these countries. It was a credit to
Limerick—especially Limerick women, and to
the enterprising and able manager, Mr Robert
Tait. The visitor was loudly cheered when
leaving. Last night Dr M'Inerny was elected an

DIED SUDDENLY IN CHURCH.

A New York paper has the following report of
a very sad death which took place in that city
last month. The deceased was well known in
Limerick, particularly by sea-faring men:—"This
is a fine building," remarked Capt Thomas
Fudge to his wife as he entered the handsome
Methodist Episcopal Church at Fourth avenue
and Eighty-sixth street yesterday forenoon.
They were the last words he ever uttered. He
had hurried his way to the church, saying that
he had heard last Sunday the greatest preacher
he ever heard, and he wanted to hear him again.
As a matter of fact, however, the Rev Dr King,
the pastor, did not preach yesterday, the Rev
Mr Jackson, a returned missionary, taking his
place, so that Capt Fudge would have been
disappointed. He had just entered a pew, when
he gave a gasp foamed at the mouth, and sank
back dying. He was helped into the Bible
class-room, where he expired. The congregation
had just begun to gather, and the fatal event was
known to few until after the services. The body
was removed to undertaker Westervelt's and
embalmed last night. Deputy Coroner
O'Meagher found that the causes of death were
failure of the heart and chronic kidney disease.
Capt Fudge was sixty-three years of age a
partly handsome man, with hardly a gray hair.
He was born in England and always followed the
sea, sailing as mate and Captain to China, the
Indies and other distant places. He retired
from the sea about eight years ago, and was in
Snug Harbour five years. He leaves a wife.
