**THE NATIONAL PROVIDENT LIFE ASSURANCE
 COMPANY.**—The announcement that £781,000, or
 about 66 per cent of the premium receipts profit,
 has been made, and is now divisible among the
 members of the National Provident Life Assu-
 rance Company, must be gratifying to their
 numerous constituency in this neighbourhood. It
 is understood that this is about three times
 as much in proportion to the premium income as
 has ever been divided by any society. It will be
 at once seen what a vast advance the profit will
 be on all, but especially on the large policies
 issued by the society. It remains for those in
 quest of the best insurance company to join, to
 look at the excessive funds and profits they will
 realise by joining this institution, so as to secure
 as large a share of the next division as possible.

DEATH OF MR MAURICE LENIHAN, JUNIOR.—
 We regret to announce the death, which took
 place this morning, of Mr Maurice Lenihan,
 youngest son of the proprietor of the *Limerick
 Reporter and Tipperary Vindicator*. The deceased
 had been ill but for a comparatively short time,
 and the news of his unexpected demise will be
 heard of with unfeigned sorrow by a very large
 circle of friends. As a Press man Mr Lenihan
 possessed capabilities of no ordinary character,
 while his kind-hearted, frank, and unostentatious
 disposition endeared him to his fellow workers,
 and won for him the respect of all classes with
 whom he officially or otherwise came in contact.
 The utmost sympathy is expressed with Mr
 Maurice Lenihan, J P, and his family, in the very
 sad bereavement they have sustained by the loss
 of a beloved member, cut off in the bloom of
 manhood. The funeral will leave St Michael's
 R.C. Church on Monday at 12 o'clock for Mount St
 Lawrence Cemetery.

IMPORTANT SALE ON MONDAY NEXT.—We are
 requested to remind our agricultural readers,
 that the extensive cattle sale at Shrabane, will
 be held by Mr F W McCarthy, Auctioneer, on
 Monday next, 27th February, for Mr Robert
 Hunt. It will comprise some eighty-five head
 of cattle, including dairy cows, in-calf heifers,
 and young stock, all of which, we are informed,
 are of a choice and superior description, and of
 that reliable class with which Mr Hunt's name
 has always been identified. The cattle have been
 treated through the winter in the best manner,
 being carefully fed on hay, and they are all in
 fine robust health, and we are assured, will be
 some of the best lots of cattle introduced for com-
 petition, for some years. It will be a satisfaction
 for buyers to know that the milking capacities of
 the dairy cows, have been tested for the past two
 years, and a record kept, which can be seen at
 time of sale; and in conclusion we must augur
 a large attendance for such a sale, where such an
 eligible opportunity is afforded for securing first-
 class cattle. The sale commences at one o'clock.
