t would con-  
s present had  
the country.

caused is very great. In Paris the recent frost  
has considerably abated the nuisance.

DR. PARKE, the young doctor who watches by  
the side of Emin Pasha, is an Irishman who has  
seen a good deal of the world. He was with the  
Nile Expedition, and he saw several battles and  
some carnage on the plains of Egypt. Stanley's  
praise of Dr Parke is the best compliment to the  
resource and the ability which he has displayed  
in his most recent and most adventurous ex-  
perience.

The third of the Special Advent Services will  
be held in St. Michael's Church on Wednesday  
evening at 8 o'clock, when the Rev W. M. Foley,  
B.D., Rector of Askeaton, will be the preacher.

THE EPISCOPAL RESIDENCE OF THE COADJUTOR  
BISHOP OF KILLALOE—The announcement has  
been made that, Ennis being fixed on as the  
future residence of the Most Rev Dr M'Redmond,  
R. C. Bishop of Killaloe, his Lordship has taken a  
lease of Ashline from Mr Richard Stacpoole, at  
£65 a year, with ten acres of land and a kitchen-  
garden. It is privacy is supposed to have in-  
fluenced the Bishop in making the selection.

THE LIMERICK POISONING CASE—The man  
Michael O'Brien, who on Saturday last was con-  
victed at Nenagh, and sentenced to death for the  
murder of his father-in-law, John Manning, near  
Limerick early this year, is now in the District  
Prison, and is stated to be in prostrated condi-  
tion. He is at present in the infirmary, the cells  
of which are larger than in other parts of the  
gaol. The prisoner is daily visited by the Roman  
Catholic chaplain. It is stated that a petition for  
reprieve will be drawn up shortly, and forwarded  
to the Lord Lieutenant.

DEATH OF MR HENRY APPLEBY.—We regret  
to announce the death of Mr Henry Appleby, ex-  
Locomotive Superintendent of the Waterford  
and Limerick Railway Company, which took place  
on Saturday evening at his residence, Avon  
Villa, New Hampton. In our last issue we re-  
ported Mr Appleby's serious illness—its sad ter-  
mination will be heard of with much regret by  
his numerous friends in Limerick. He was for  
several years Locomotive Superintendent here,  
and introduced many improvements on the  
Waterford and Limerick System during his con-  
nection with it, which closed about twelve  
months ago. Mr Appleby was 51 years of age,

everything to suit their taste. The makers  
he remarked include Tuck, Hamilton, and  
Shimer. Cannock's "one shilling surpris-  
net" of 60 cards is very good.  
The toy department is fully  
with all that the fickle mind  
youngster take an interest in. The  
chinese lanterns in grotesque designs, all  
sizes. There are mechanical horses, and  
carts, and of course the mechanical doll  
spicuous amongst this particular collection  
dressed, and undressed, are selling at  
moderate prices. A large assortment of  
can wooden toys is shown, and youths  
something to suit them in games, draff  
foot balls. A few words as to the general  
store. The glove department is replet  
seasonable goods. The six-button sewn ta-  
glove at 1s 6d is being largely sought at  
speciality is the four-buttoned black Fre-  
at 2s 11d, usually sold at 3s 6d. Ladies  
(lined and kid), black and coloured, are to  
in great variety, while gents' tanned  
driving gloves are to be had of the best.  
The stock of woollen underclothing, fancy  
woolraps, etc, is well worth inspection, while  
Yuletide presents may also be selected from  
handkerchiefs and silk umbrellas. The  
remark applies to the lace department in  
there are many beautiful specimens of lace  
and handkerchiefs, and cambric handker-  
(hemmed and stitched) in fancy boxes. A  
seasonable present for a lady could be  
of than a set of furs, and Messrs Cannock  
magnificent stock in beaver, skunk, sable,  
fox, otter, and other material. Seal jack-  
to be had in all the newest shapes, as  
collars, muffa, bags, carriage wrappers, e-  
mantles and fur-lined cloaks are all of  
superior quality and newest make. We re-  
refer to the other departments, except to  
that blankets and other goods suitable for  
table societies are marked at specially low

THE INFECTIOUS DISEASES NOTIFICATION  
A meeting of the Sanitary Board was held  
in the Town Hall, Ald Landers presiding.  
present—Town Councillors M. G. Dow  
Kenna, J. Clune. A sealed order was received  
the Local Government Board, prescribing  
form of certificate to be signed by the  
under the Infectious Diseases Notification  
1889. It is proposed to introduce the Act  
Limerick, a special meeting of the Town  
having been convened to consider the  
ability of doing so. It appears that under  
statute the next-of-kin of the sick person  
have to report the illness to the doctor, who  
certificate would then take steps to isolate  
patient or disinfect the room. There is a  
for omitting to report.
