The Ministerial Declaration read in the Cham-

Government were the passing of the Budget for
1890; the assurance of the success of the Inter-
national Exhibition, and the initiation of common
action in strengthening the rule of peace.

THE CAPTURE OF GERMAN MISSIONARIES IN ZANZIBAR.

A Times Zanzibar telegram to-day says that
much anxiety is beginning to be felt regarding
the captured German Missionaries, of whom
nothing has been heard since the date of their
capture, five weeks ago.

FOREIGN.

Paris, Saturday.

It is believed the Sitting Chamber to-day will
pass without serious incident. It is thought
probable that M. Cluseret, who was credited with
the intention of preventing interpellation on the
revision of the Constitution, will renounce this
idea.

Vienna, Saturday.

The Vienna Press generally regards the new
French Cabinet as the outcome of embarrass-
ment, and does not think it will continue in
power longer than the opening of the Exhibi-
tion.

Gibraltar, Saturday.

The British yacht Ceylon, which went on a
sandbank, has floated.
