the request of Sergeant Ayre, placing the Petty
Sessions District under restrictions, some dogs
having been affected with rabies in the locality
recently.

On Saturday Mr Coroner Cleary held an in-
quest at Cahircionlisk on the remains of Mrs Ann
Murnane, who was found dead in her bed that
day. Bridget O'Grady gave evidence as to the find-

able time. The jury found a verdict that
death was due to asthma.

Rector of Mallow. The office has £100 a year
attached to it. The Very Rev S. M. Madden,

the effects of injuries received on the head, in-
flicted, as alleged, by one Michael McMahon. Dr
Nolan held a post mortem examination, and
found that the deceased died from abscess of the

death was due to the injuries inflicted or to the de-

FAREWELL DINNER TO COLONEL H. H. HOOKE.
—Colonel H. H. Hooke, who has for the last four
and a half years held command of the 1st batta-
lion, Derbyshire Regiment (Sherwood Foresters),
and whose time expired on the last day of
1899, was last week entertained at a farewell
dinner given in his honour by all his brother-
officers. After the toast of "The Queen," Major
Trower, in a short and able speech proposed
long life, health and happiness to
the gallant colonel, and spoke of how his depart-
ure would be regretted by every officer, non-
commissioned officer, and man in the battalion;
how Colonel Hooke's one aim and object had been
the credit and honour of his corps, as well as the
comfort and happiness of all in it. The toast was
drunk with all honours, Colonel Hooke being
carried round the room shoulder high, to the
strains of "For he's a jolly good fellow" from the
band below. Captain Evans then proposed the
health and happiness of Mrs Hooke, which was
most enthusiastically received. He stated how
deeply her departure would be regretted by every-
one; from the youngest child to the oldest soldier
—all had reason to remember with gratitude and
love Mrs Hooke's kindness. Before the close of
the evening Colonel Hooke was carried round the
square by the officers, headed by the band play-
ing "Auld Lang Syne" and the regimental
march. On arrival at the commanding officer's
quarters three hearty cheers were given for Mrs
Hooke. Colonel and Mrs Hooke left Plymouth
for London on Tuesday, all the officers assem-
bling at the station to wish them God-speed, and
the men turning out to cheer them heartily as
they left barracks.

IMPROVED METHOD OF DISCHARGING GRAIN IN LIMERICK.

TO THE EDITOR OF THE LIMERICK CHRONICLE.
DEAR MR. EDITOR,—I take the following
extract from Mr Hall's book on Limerick Harbour,
which will account for the quick despatch in dis-
charging steamers in our dock of late:—"A
floating steam grain elevator, capable of turning
out 600 tons by day, is available, while the docks
are to be lighted by electricity, so that discharg-
ing can be carried on by night if necessary."
Could you kindly tell me the entire cost of this
elevator?—the number of vessels discharged by it
since its introduction?—the cost of discharging
said vessels per ton?—the saving effected there-
by?—also the time occupied and saved compared
with the now obsolete manual labour without
steam-winch method, and oblige

Yours obediently,
A MERCHANT.

courteous Secretary of the Harbour Board for the
information he seeks.—ED. L. C.]
