people of Limerick and its vicinity rightly under- stand the importance of supporting by every means in their power the building of new Tip- perary? We are constrained to ask the question by the painful fact that the appeal for horses to draw the bricks from the quays here to the rail- way station has not been met by that hearty and generous response which is characteristic of Limerick and its people. The sacrifice involved is not very great, perhaps its trifling character has been the reason for its neglect by many who have the means to meet it, and are heart and soul with the object desired." Although the sacrifice is not very great, the citizens of Limerick are not inclined to make it; and if the people of gallant Tipperary wish to throw up their busi- ness, their homes, and the future prospects in life of themselves and their families, for a matter that is no concern of theirs, they may learn that the vast mass of the people are strongly inclined to let them reap the folly they have sown. The New Tipperary is a sham, and they know it.

Mr Henry Hodges, Mr J. Muller, Mr G. W. Greenhill, Mr B. F. McCorquodale, Mr H. B. and Mrs Clifton and party, are staying at the Shannon Hotel, Castleconnell, for the spring fishing.
