## DEATH OF MR GEORGE ARTHUR HARRIS.

We regret to announce the death of Mr George Arthur Harris, which took place at his residence Kilmallock, on Wednesday last after a brief illness. A manly and stalwart figure, he was not the least remarkable in a county noted for such, and few were better known both in our district markets, in connection with the butter trade, and as Postmaster at Kilmallock for over 39 years. Lately he retired from the more active pursuits of life, and devoted himself closely to the breeding of horses, at which he had already won for himself the distinction of being one of the most successful and enterprising breeders in Ireland. A pursuit of such vital and commercial importance to the county at large was not allowed to pass by without public recognition; and the Farmer's Club, in 1868, when the late William Bolster, Esq., was president, presented him with a valuable gold watch, showing that his efforts were, even in their infancy, thoroughly appreciated and acknowledged. Accompanying the gift was an address, in which we who knew him have much pleasure in repeating, knowing how truthfully they had gauged their man:—"You have, in addition to your other serious engagements, seen and acted on the necessity that existed for improving the breed of horses in these districts, and you have succeeded in introducing such sires as have, to your great credit, and to the benefit of breeders generally fulfilled the object you so worthily sought to accomplish." In conjunction with the late W. H. O'Sullivan, Esq., M.P., and others he did much to improve and extend the town of Kilmallock as well as its fairs and markets. An honest and upright friend and the recognised head of an old and respected family, his demise is deeply and deservedly regretted, and his remains, borne through the town by his sons, were followed by a large and representative cortege and over one hundred vehicles, to the family vault at Knockaney, where an impressive address was delivered by the Rev Dr Hackett.

## "OTTER" FISHING.

TO THE EDITOR OF THE LIMERICK CHRONICLE.  
SIR,—In reference to the "otter fishing" which appeared in the *Chronicle* of the 10th day last, kindly allow me space to see why Mr H. V. Macnamara, owners of the "lakes and tarns" Clare who think with him, cannot do so—put a stop to cross-fishing whether with or without an "otter" to me they can do so without any to make the "otter" illegal.

The recent judgment of Sir Fox English Court of Chancery (as *Week's Field*), deals with the rights of owners, and, read in connection with the *Chronicle* of the 10th day last, will prob-
