effe said he concluded on the 19th at the deceased was suffering from ver. The drainage of the prison was y, and the prison, witness believed, was healthiest institutions in the three There were trained nurses attending d. The inquest was then adjourned y next.

#### THE FAMINE IN RUSSIA.

*Chronicle* telegram says:—Information interior states that the mortality starving peasantry has shown a con- ncrease since the advent of the cold The horrors of frost are now being ose of famine, and in many Govern- people are commencing to die in great Hungertyphoid has already made its in many districts, and in the Govern- znan in one parish alone 120 peasants ly perished from this terrible epidemic. lity among the horses and cattle is far n one town, Voronetz, the capital of ment of that name, 5,000 horses have atered since last August, there being or them or for the cattle. The streets the large towns along the Volga are ith bands of famishing peasants, men, d children, who have wandered in from d villages. The horrors of the famine een exaggerated, and will never be y only because they are not made public e the villages are scattered over such e extent of country that it is impos- ain accurate information. Now that a frozen it will be almost impossible to the sufferers in the South-Eastern
