mediately offered 2000 for the detectives quietly continued their investigations. At the inquest the evidence adduced cast suspicion upon the banker, the police testifying that money alleged to have been stolen by the masked burglars had been found hidden in snother part of the house by some one evidently familiar with the premised. The other statements made by Mr Cowles were also discovered to be false, and the result was his agreet last evening. The city was greatly excited, and there is talk of lynching. The motive for the crime is found in the fact that not long back Gowles insured the life of his wife, and the further fact that the banker is suspected to short in accounts in consequence of unfortunate speculations. An investigation of the accounts is to begin at the Pacific Bank to day.

POLITICAL NOTES.

(FROM THE STANDARD OF THETERDAY.)

There is no prospect of any opportunity being found for the resumption of the debate on Mr T. W. Russell's amendment to Mr Morley's motion, and the first portion of the motion, therefore, remains on the journals of the House in the shape of a few meaningless words. There is great soreness on the Conservative benches at the breach by the Liberal leaders of the arrangement arrived at between the Whips as to the closing of the debate, and it is felt that a precedent is created which may have very inconvenient effects on the business of the House.

The proposal of theme.

The proposal of the M'Carthy party with regard to the Parliamentary fund have not yet been accepted, but it is generally expected that Mr Parnell will consent to apply the fund to the evicted tenants.

PRINCE BISMARCK'S TREASON.

Prince Bismarck stands in damper of a prosecution for treason in having, he alleged, secretly through the Press organised a Parliamentary opposition to the German Court and Government. The Emperor is said to be resolved on decisive action. A meeting of the Pressian Ministry has been held to consider the matter. Some of the Berlin papers on Tuesday evening appealed to Prince Bismarck to disavow his concern with the newspapers complained of. In Paris it is stated that Prince Bismarck is about to publish a book pontaining sensational revalutions as to the Berlin Conference and the Triple Alliance.

Alliance.

The late Dr. ALFRED HFDSON 2, Merrion Square North, Dablin, President of the Royal College of Physicians, wrote as follows —

"I have for a long time been in the habit of recommending the use of home-made unfermented bread to my patients, not on account of its economy (although this is well ascertsized), but because I consider it far more wholesome; and the mode I have for some time employed in my own family has been by the use of Mr Borwick's Baking Powder, which from my knowledge of its composition, I consider, possesses more advantages and is liable to fower objections than any mode of making unfermented bread hitherto proposed."

Borwick's Baking Powder, which has been awarded Five Gold Medals for its great excellence, is equally, useful for making wholesome and digestive cakes, pastry, an dpuddings. Sold by all grocers and chemists, in 1d and 2d packets, and 6d., 1s., 2s 6d. and 5s patent boxes.

Tuesday night's Dublin Gasette contains notices sanctioning the construction of the Baltimore Extension Railway, the Headford and Kenmare Railway, and the West Kerry, Killorghin and Valentia Railway. There is also an order author, ising the abandonment of the West Kerry Light Railway.

Railway.

During the past week eight steamers landed live stock and fresh meat at Liverpool from American ports, bringing a collective supply of 2,970 cattle and 12,557 quarters of beef, which, cannot be supplyed to the su

everything they possibly could to maintain and support the markets. He referred to the amount of good the association was doing, and urged on the meeting the necessity of taking measures to prevent those who failed to pay their subscriptions from obtaining the same benefit as the members who were doing everything to promote the interests of the association.

The Chairman agreed with the observations made by Mr. Stokes, and said they should pass a resolution on the matter and act on it firmly. Mr. Slattery suggested that the butter of those merchants who had not paid should not be coopered.

Mr Slattery suggested that the butter of those merchants who had not paid should, not be moropered.

The Chairman said they should take some strong steps to deal with those gentlemen. In one case of the kind previously they dealt with it way effectively.

The Hon Secretary suggested that the matter be left in the hands of two or three members of the association, and the following resolution was adopted—"That any gentleman attending the markets where the members of this association, attend, who refuses to support the association, attend, who refuses to support the association, attend, who refuses to support the association, be dealt with in such a manner as may be deemed proper by Mr Gibson and Mr Hickey, who have been appointed a committee to carry out the wishes of the association."

The Chairman and perhaps some of the members would be interested to know that their receipts for the year was \$2.148, and the expenditure \$4.21.

Mr Slattery—You will soon be able to take some of the Race Committee stares.

The Chairman, in referring to the markets, said, it should be known, and known publicly, the butter market of Abbeyfeale was the most honest market in Treland. That was unquestionably that fact, and as a result the farmers got more money there than they would get in places where reguery was carriedon.

On the proposition of Mr Stokes, their former president, Mr Swain, was re-elected. He referred to the admirable services rendered by Mr Swain, and alluded specially to the successful prosecution which he had recently undertaken in the interest of the association.

Mr Stokes was re-elected Treasurer, and Mr Hickey Secretary, reference having been made to the valuable services rendered by those gentle-

the traffic of the company would certainly suffer, the trade of Limerick would certainly suffer. The trade of Limerick would certainly suffer. Their only remedy was to take their traffic from the Waterford and Limerick Ealisway Company and give it to others. Fersonally he would be most reluctant to do that, but of, course they should take steps to protect their own interests. Except that some arrangement was made there was no other course open to the members of the butter trade of Limerick.

The Chairman, in putting the recolution, said at the time of the strike of the workers in the locomotive department of the Waterford and Limerick Railway he, with a great many others, felt that they were justified in their strike, and he, with a great many others, had given them subscriptions to maintain their str is, but when he heard of this strike, he said if he sthe most prepared to maintain their str is, but when he heard of this strike, he said if he sthe most prepared to maintain their str is, but when he heard of this strike, he said if he sthe most prepared to maintain their str is, but when he heard of this strike, he said if he state most prepared to maintain their str is, but when he heard of this strike, he said if he state most prepared to maintain their str is, but when he heard of this strike, he said if he state most prepared to maintain their str in the strike of the said the men were wrong. Now the directors, who were educated gentlemen, and who ought not be ignited of the strike of the said the men were wrong. Now the directors, who were decated gentlemen, and who ought not be ignited of the strike strike he was abounced a fraid to a strike some suitaged that the present moment he was abounced a fraid to a strike some suitaged to a tripersory merchant, and his butter was sent to Tipperary. He was impossible for one to attempt to do business when they had to take if some satisfactory arrangement was not made, was to send their traffic over the first south of the land western Railway, because they had to t

stated he might have tripped over a diagonal chain.

The Coroner, in summing up the evidence, said it seemed to him a curious thing that there should not be convenient every appliance possible to save life—at least grappling irons that would be long enough to reach the bottom.

[It appeared from the systems of one witness that some poles which had been used did not reach bottom.]

The jury, after consulting, found a verdict that death was caused by drowning, but whether accidental or otherwise they could not say.

A decided sensation has been caused in Jerusalem by the introduction of electric light into a new and flourishing flour mill lately started thore. The building in which the light has been introduced is near the supposed site of Calvary, and close to the Damascus Gake. It need hardly be said that the Araba and Jawa are much puzzled to account for a light in a lamp which there is no oil, and up to the present time, while gazing with wonder, have been keeping at a respectful distance.

side; at the time of the fight there was no person there but the men who followed him; it was no person there, but the men who followed him; it was thirty feet away from them, and was standing near the bowrs of the Ardnamult; the fellows that pushed him in ran away back over the bridge; I ran away for kelp; the man shouted when he fell into the water, if do not know the men, who were fighting with him.

To Mr Moran-The man himself made no stroke to save himself. If he had made one stroke he would have been saved by Cesgrave while on the tank.

This closed the evidence.

Mr Moran said that he appeared for a man named Bourke, who had been arrested in connection with this case, but no evidence had been given here with mand to the water for the jury to come to a conclusion as to how the man got into the water, because the first witness stated he might have tripped over a diagonal chain.

The Coroner, in stimming up the evidence, said.
