SIR,—I am sure every man of sober and judgment must look on the squabble now g on in connection with the Limerick Board onservators with amusement, not unmixed, ver, with certain feelings of apprehension e future of this unfortunate country. e meeting of the 22nd ultimo was indeed er striking instance of the exercise of the eudal principal of "might over right" which r days have seen restored to some parts of nd. Following the tragedy, we have the in the meeting of self-styled "conservators" he Town Hall on Thursday. The local agogues have had a rare opportunity of ex- ing their oratorical powers in that choice gently language so entirely peculiar to selves, and which we have been so accus- d to hear in the board-room of our Unions in our Municipal Council Chambers, for some past. In these latter places the popular y (save the mark!) have it all their own way, te, and tired of abusing each other and mis- histering and mis-spending the public ies they now turn their attention to "fresh s and pastures new." What is it to Messrs inery, Gibson, and McInerney, who have such ve interest in the fisheries (though not we ve boasting the possession of even the "frog l" which the *Leader* in the course of its choice rks in last night's issue ascribes to Mr me-Barry)? What is it to these gentle- that the law is against them? What t is it to them that the Court of Queen's h has decided they are not qualified to sit ct as Fishery Conservators? Nothing r party have shown an utter disregard of of Parliament and the law of the land in past; and will continue to do so. The Board onservators is constituted by successive Acts rliament, but the veto of these gentlemen een uttered, and the law must be set aside. y have their representatives in Parliament to
