Black Watch lost their lives yesterday morning. Every year some persons are drowned whilst bathing in this portion of the river. Apparently the loss of life is caused by the holes in the river bed from which sand has been excavated and carried away. An unskilled swimmer, therefore, suddenly finds himself out of his depth and deprived of the power of shouting to his comrades, who would be glad to give him all the assistance in their power. The bed of the river in this quarter can only be described as a series of death-traps for those unacquainted with its nature and who are not swimmers. Such places ought to be marked with notice boards as "Dangerous." We hope bathing will be altogether stopped in this quarter, and no one whatever permitted to risk his life in such a spot. The deaths of the two soldiers ought to be sufficient warning enough in this matter.

We are requested to state that in consequence of the "Flower Service" at the Cathedral, there will be no Children's Service to-morrow at St. Michael's Church.

The Rev. Mr. Spence, of Australia, at present travelling in Ireland, will preach (D.V.) to-morrow morning and evening in the Methodist Chapel, George-street.

On Wednesday last, at Barronstown, near Tipperary, a man named John Dryer, a native of Ballybricken in this county, suddenly fell dead while speaking to a farmer in the locality. The deceased was seemingly in good health previous immediately to the occurrence.

The parish of Derralossary, Diocese of Glendalough, is vacant by the appointment of the Rev. E. H. Waller to the incumbency of Athy. Derralossary is one of the most beautifully situated parishes in Ireland, comprising within its limits the Vale of Glendalough, and the picturesque scenery of Lough Dan and its neighbourhood.

The Right Rev. Dr. Graves, Lord Bishop of Limerick, was present at the laying of the foundation stone of the Church House, by the Duke of Connaught, on Tuesday last. The Church House, Westminster, is to be the Church of England memorial of the Queen's Jubilee. There were 31 bishops present on the occasion.

The branch of the Munster and Leinster Bank which was established last summer in Kilmihil, was closed on Wednesday by order of the directors. Some time ago a difference arose between the people as to the position for holding fairs and markets. This difference has already affected the fairs, and to the same cause may be attributed the closing of the Bank.—Cor.

SUDDEN DEATH.—A woman named Mrs Carson, residing in Windmill-street, was found dead in her bed at one o'clock this morning. An inquest was held, and a verdict that death resulted from heart disease was returned.

ENNIS PETTY SESSIONS.—Mr F. G. Hodder, R.M., and Mr H. de Willis, presided at the weekly petty sessions yesterday, and disposed of a number of cases, but none were of public importance. Mary Meade was sentenced to six months' imprisonment for being drunk, disorderly, and assaulting persons in the streets. Four persons from Clare Castle, for assaulting Michael Hewitt, mate of the Hebrides, were fined 10s each, and ordered to find security to keep the peace.—Cor.

MUNICIPAL ELECTION.—The lamented death of the late Mr L. E. Ryan, T.C., having created a vacancy in the representation of the Castle Ward, the Mayor has fixed Thursday the 9th July, for the election of a successor. The last day for lodging nomination papers will be before 5 o'clock p.m. on Tuesday next, the 30th inst. The candidates are Mr W. Nolan, ex-high sheriff, and Mr John Kevlahan, Clare street. There are 61 voters in the ward.

THE "DEMONSTRATION" AT THE WORKHOUSE. Six inmates of the Limerick Workhouse named Mary Kuran, Kate Burns, Anne Walsh, Mary Fitzgerald, Mary Shaughnessy, and Bridget Kennedy, were arrested on a sworn information to-day, charged with violent and insubordinate conduct at the Workhouse on Wednesday last. The case is connected with the demonstration of a number of the inmates against a Workhouse official. The prisoners were taken by Sergeant Shea before a magistrate and remanded to Petty Sessions.

CONFERRING DEGREES AT TRINITY COLLEGE.

The Summer Commencements at Trinity College on Thursday were of special interest from the number of honorary degrees to be conferred. The distinguished candidates included Prince Edward of Saxe-Weimar, Lord Ardilaun, Lord Iveagh, the Attorney-General, Rev Dr Mahaffy, Professor Emerson Reynolds, Dr Purser, and Professor Cunningham. The Examination Hall, in which the ceremony was held, was crowded with a fashionable gathering, and there was much enthusiasm as the candidates mentioned were presented for their degrees. Amongst those on whom the degree of D.D. was conferred we notice the names of the Rev. W. J. Clarke, Rev. A. R.

MELANCHOLY BATHING ACCIDENT AT THE KING'S ISLAND.

TWO SOLDIERS DROWNED.
A melancholy bathing accident occurred yesterday morning at the King's Island, whereby two of the men of the Black Watch Regiment—Sergt. Todd and Private Miller—lost their lives. According to the regulations 190 men of the regiment, under command of Adjutant the Hon. A. D. Murray, went on bathing parade to the Island Point. It was not until the men were retiring from the water that their ill-fated comrades were missed. When attention was drawn to their absence, the swimming piquet, which is composed of the best swimmers of the regiment, and which always accompanies the men on such occasions, immediately proceeded to dive for the bodies, but their efforts were unsuccessful; and it was not until about three hours afterwards that the body of Private Miller was recovered, while that of his comrade has not yet been found. Both were able to swim, and it is difficult to know how they were overcome in the water, but the supposition is that they were caught in the sand holes, many of which exist there owing to the practice of digging sand, thus rendering the place extremely dangerous to those who are not cognizant of its surroundings. Unfortunately this is not the first accident that has occurred at this place. Several have come by their death under similar circumstances. It is now high time for the authorities to take some steps to prevent the sacrifice of human life which occurs every year at this particular place, by issuing a notice calling attention to its dangers, as well as furnishing life-buoys, to be used in case of emergency. A sad feature of the latest fatality is that Sergt. Todd had only recently been married, and the direful news of her husband's fate awaited his wife on her arrival from Belfast this morning.

THE INQUEST.

An inquest on the body of Private Miller was held to-day at the New Barracks by Mr Coroner DeCourcy, and the following jury—Messrs Wm. McGrath (foreman), James Wallace, John Creagh, Wm. Coll, Hugh Keenan, Charles Tynan, James Fitzgerald, James Carroll, Robert Manning, P. Ryan, Thomas Sheridan, and Patrick Walsh.

Sergeant Hickey watched the case on behalf of the police, and District Inspector Lawless, was also present.

Sergeant George Miller was first examined. He deposed he was stationed at the New Barrack; he identified the body lying in the hospital as that of his brother, David Miller; he was present and knew that his brother came by his death by drowning.

Mr Coll—Was your brother able to swim?
Witness—He was; I did not notice my brother going down, nor do I think anybody else did.

Mr Coll—Was there a piquet along the bank?
Witness—There was.

Mr Coll—It is a most extraordinary thing that no one saw him sinking.

Adjutant the Hon. A. D. Murray deposed he was in command of the party who went to the King's Island yesterday morning; his notice was not drawn to anything until about 6.53, when the men were dressing; Sergeant Miller reported to him that his brother, Private Miller, and Sergeant Todd, were missing; witness then directed a bathing piquet to dive for the bodies, but they did not succeed in recovering them; the matter was then reported to the police at the Strand barracks.

By the Coroner—In accordance with the regulations he had a party of expert swimmers there some on the bank and some in the water, and had also life buoys belonging to the Limerick Steamship Company; there were about 190 men on bathing parade.

The Coroner—Was there anything like horse-play, or anything like practical joking?
Witness—Oh, nothing of that sort; the men were within twenty yards of me; there was no practical joking.

The Coroner—Was deceased on good terms with his comrades?
Witness—I have no reason to believe otherwise.

Mr Coll—Was there a doctor present while the men were on bathing parade?
Witness replied there was not.

A juror said it had often been complained of that a doctor did not attend those bathing parades. He thought it would be very necessary, because if a body was recovered soon after sinking, there would be a chance of restoring animation.

Witness—We have to do the best we can for ourselves. We have nothing to do with the medical department. Witness was not long in Limerick, and was not aware of the dangers of the place. Since the occurrence the military had been forbidden to bathe there until a suitable place would be found.

Sergeant Edward Harly deposed that he was in charge of the expert swimmers who accompanied the men to the King's Island. He and two of the men remained on the bank, ready to jump into the water to rescue any man in difficulty. They remained there until the bugle was sounded for them to retire. No alarm was raised until the men were ordered to retire from the river. He did not see the deceased drowning. He believed the deceased was on good terms with the remainder of his comrades. Witness was not present when the body of Private Miller was recovered.

Lance-Corporal Robert Bayley, of the Royal Artillery, stated that he was at the King's Island when the deceased Private Miller was brought to the bank. It appeared to him that the deceased died from cramps, his two hands being clasped over his stomach.

To a juror—He considered that part of the river was very dangerous. He was not present while the men were bathing.

The Coroner, reviewing the evidence, said as one of the jurors suggested, it would be a very desirable thing if the men were accompanied by a doctor while on bathing parade. The commander had directed that bathing should be discontinued until a proper place was obtained, and he thought that order was a very proper one. There was nothing to suggest that the occurrence took place otherwise than by accident, and he asked the jury to return a verdict to that effect.

The Jury returned a verdict in accordance with the Coroner's directions.

SAD FATALITY ON THE WATERFORD AND LIMERICK RAILWAY.

A sad and painful accident occurred this morning on the Waterford and Limerick Railway, resulting in the death of an engine-driver named Peter Ahern. Deceased was in charge of the 11.30 goods train from Waterford, and approaching Newpallas he got on to the side of the engine to look after some machinery which had got heated. While in that position the unfortunate man came in contact with a bridge, and was thrown off the engine, one of his legs being severed from the body, which was also subject to other mutilation. An inquest was held at New Pallas station, after which the body was conveyed to the deceased's residence in Waterford. He was married, and leaves a widow and two children.

Yesterday the Vice-Chancellor delivered judgment in the action of Mr Smith-Barry, M.P., to restrain several of the Town Commissioners of Tipperary and others from interfering with his tolls and customs of the markets and fairs in Tipperary. His lordship commented severely on the conduct of the defendants, granted a perpetual injunction against them, and directed a...

HORSE SHOW NOTES.
His Excellency the Lord Lieutenant brought his visit to Limerick to a conclusion to-day. This morning with his staff and accompanied by Mr J. F. Bannatyne, D.L., Lord Zetland drove to Castleconnell for the purpose of having some fishing on the Hermitage waters. About a quarter to three the Lord Lieutenant left Bird Hill by special train for Ballybrophy, where he took the ordinary train for Dublin. We learn that his Excellency was highly pleased with his visit to the city, where the reception accorded him every place he visited was of a most cordial and respectful character.

His Excellency held a reception at Summerville on Thursday night, a very large company being present. A large marquee was erected on the tennis court, and in the vicinity was a profusion of beautiful flowers. The band of the Black Watch performed during dinner. The following were amongst those present—The High Sheriff, and Mrs Bannatyne, Earl and Countess Fingall, Viscount Combermere, Viscount and Viscountess Glentworth, Lord Massey, Hon Mrs Guinness, Lord Montagu, Lord and Lady Fermoy, Honourable H. Plunkett, Colonel the Honourable Lionel and Mrs Mas
