SHEEP FARMING IN THE COUNTY LIMERICK.—
The farmers of Limerick are making an advance
in sheep farming. Three hundred Scotch lambs
of the horned type have been imported from
Perthshire. The sheep are of the mountain
variety and are exceedingly hardy. It is believed
that the remarkable wool-producing qualities
that they possess will be considerably enhanced
when they are fed upon the rich pastures of
Limerick county, and the home sheep will be
considerably improved by mixture with the Scotch
variety.

Dorothy's Home Journal which we have fre-
quently noticed favourably in these columns, has
commenced its fourth year in a new and very
improved form, giving its readers, in addition to
its well-known novelties, an instalment of a serial
story, by Boisgoboy, several columns upon dress,
cookery, and health; and space is devoted to the
ventilation of girls' grievances. *Dorothy's Journal*
is widely read throughout Ireland, many of its
stories being written by our countrywomen,
whilst it will be seen that only last week a Dub-
lin lady secured the prize for an original *menu*.

"**GREAT THOUGHTS**"—This week's *Great Thoughts*
chronicles a new departure which demands favour-
able notice. In the first place, it presents its
readers with a copy of one of the masterpieces of
Dr Hoffman, of Dresden, the subject of which is
"The Guardian Angel." The picture is repro-
duced in fifteen colours, and is truly exquisite.
We find also in this issue many new literary
features. Prominent among these is the com-
mencement of a new serial story by the gifted
author of "The Silence" of Dean Maitland,
together with the first of a series of articles by
Arnold White, on "The Pathos of London Life."
And all this for the modest sum of one penny.

SUDDEN DEATH AT RATHKEALE.

On Sunday morning, after first Mass, an old
and respectable woman named Mary Gray was
found dead in her residence at Boherbeg. The re-
port caused some alarm in Rathkeale, as she had
been out shopping so late as 9 p.m. the previous
evening. Coroner John Sheehy was communicated
with, and an inquisition was held. After the
examination of several witnesses, the jury, of
which Mr Timothy Cusack, T.C., was foreman,
returned a verdict that death resulted from
apoplexy.

SINGULAR DROWNING FATALITY AT MILTOWN-MALBAY.

On Sunday evening while fishing off the rocks
with a rod at Poulakirka, Clodigh, a young man
named Darby Burns was washed off by a wave,
He battled for some time till he gained another
ledge of rock, when a second wave came, washing
him into a seething surge. His body has not yet
been found.

DARING BURGLARY IN THE MILITARY BARRACKS, TEMPLEMORE.

On Saturday night, about half-past eleven
o'clock, Lieutenant Payne, of the East Surrey
Regiment, entered his quarters in the barracks at
Templemore and found two burglars in possession,
and his room entirely disarranged. He seized
one of the men. The other thief in attempting to
escape jumped from the window, which was on
the third storey, breaking his leg and arm in the
leap. Lieutenant Payne relaxed his hold on the
prisoner held by him and let him go, first secur-
ing his cap and shoulder-strap as a means of iden-
tification. He at once alarmed the guard, and
had the injured man removed to hospital, where
he now lies in a dangerous condition. The other
burglar was afterwards arrested and lodged in
the guardroom. A watch and an opera glass are
missing. The two men concerned in the burglary
are both privates in a detachment of the Royal
Artillery quartered at Templemore, and have
about six months' service.

CURATIVE MAGNETIC APPLIANCES.

Wetton and Company have entered on the
fourth and last week of their special visit to
Limerick. The success which has attended their
efforts in the relief and cure of disease is very
gratifying, and they look forward to even greater
success before their visit terminates on Friday
next, 30th September. "Procrastination is the
thief of time," therefore do not put off getting a
remedy for your complaint, as by doing so you
may rob yourself of future happiness and remain a
sufferer for life. Magnetic treatment is recom-
mended to every sufferer; it cannot do any harm,
and is bound to do good. Wetton and Company's
Consulting Rooms are at Mrs Scanlan's, 36,
Cecil-street, Limerick. See special advertisement
in advertising columns.

NOTE.—Visit ends on Friday next, 30th
September.

NOVELTY FOR LADIES.—The Cellular Corset
from 10s 6d; Cellular Stockings from 2s 6d per
pair. The Cellular Corset, fitted throughout
with real whalebone, gives support without im-
peding respiration. It allows perfect freedom of
action, and possesses the additional advantage of
being porous, by which it is rendered cool in
summer and warm in winter. The structure,
though soft and supple, retains its shape to the
last. The Cellular Corset is excellent for walk-
ing, riding, dancing, tennis, and, indeed, for all
active games and exercises. Sole Agent for
Limerick, C. CORNELLIE, Thomas street.
