

on behalf of the Executive, taking the prosecution, had were bound to do. They had Mr Hutchinson unfairly, not to inflict any punishment of his being willing to serve for 1894. It is stated that the Crown had met fairly. Justice said he thought the prudent and becoming one, to sink any observations of his result. He would give the withdraw the plea of not

**SHIP ON FIRE AT SEA.**  
A ship from San Francisco states—The bark, which sailed from Cardiff, Wales, on March 3, laden with coal, has been attended during the greater part of the voyage. It was discovered to be on fire, and the crew were thrown overboard. Owing to the hold and the great quantities of water were in the hold day and night for a number of days, the flames smouldered. In the evening the situation on board was so bad that explosions occurred, and the vessel was extended from end to end of the deck. The masts were battered down until the vessel was beached, and when she was greatly damaged by fire and

**OF FAILURES, &c.**  
Failures recorded in Ireland during July 29th, was 11, viz:—Proceedings published in the Deeds of Arrangement filed at the Court, 5. The respective numbers of Arrangement, 8.—Decrease in Bankruptcies as in Deeds of Arrangement

of Sale published in Ireland during July 29th, was 3, showing a net decrease in 1893, to

is and Judgments published during July 29th, was 60, of which 17 were against Farmers and 43 against Traders, and 16 against Traders, and 14 non-Traders, showing a net increase in 1893, to 60. *Kemp's Mercantile Gazette.*

the well-known English ship Saturday in breaking the record of 244 miles, having come in the same time. He also undertook the course, but failed by half an

old rates. Coal advanced a shilling a ton at Glasgow yesterday. The masters will probably offer the men an advance of 6d per day.

At the opening of the London Coal Exchange yesterday, there was only a small attendance of members. The market was firm at—best Wallsend 25s, and Silkestone 23s per ton. As the afternoon wore on, however, there was a full attendance, with the result that at the close an advance beyond that of Friday last was announced of 2s per ton on best Wallsend, as between colliery agent and merchant; is on all coal to be sold to the public, and 1s increase to dealers. These figures naturally caused no little excitement, but so far as could be ascertained very little business was done at the prices. A private meeting of the principal merchants on the Exchange was held in the afternoon in the rooms of the Society of Coal Merchants. It was subsequently announced that in view of the colliery owners' and agents' increase to the merchants the latter had been compelled to increase the price of coal to the public a further shilling per ton, and to dealers a similar amount, making a total rise of four thillings per ton since the commencement of the crisis. The representatives of the Amalgamated National Union of Coalporters and Amalgamated Society of Watermen and Lightermen were in attendance at the Exchange throughout the afternoon. Despite the fact that a large number of agents on the Exchange have received an intimation that the collieries they represent are at a standstill, they continue to accept orders at the current market prices, and this is regarded as an intimation that they have plenty of coal at the pit's mouth.

*Announcement of Births, Marriages, and Deaths not exceeding 5 lines (which must in all cases be duly authenticated) are charged 2s 6d each. For ver additional line, 6d*
