

list of successful candidates. Acting Sergeant O'Connor is held in the highest esteem by his comrades, and by many private friends, to his well-deserved promotion will give satisfaction. Acting Sergeant O'Connor transferred to take charge of the Templemore Police Station.

**TEMPERANCE YOUNG MEN'S ASSOCIATION**  
**MARY CLASS.**—The opening meeting of the club will be held on Friday evening next at 8 o'clock, when the President, Rev. James Dowd, will read a paper entitled "The Antiquities of the Templemore." The following papers will be read during the coming half session—*"Fragments of Irish History,"* by W. McClure; *"The Great Pyramid,"* by Denis Hannan, D.D.; *"Some Minor Aspects of Irish Astronomy,"* by Mr. F. P. Hook; *"Free Trade and its Effects on Irish Industries,"* by Mr. R. W. W. W.; *"A Trip to Paris,"* by Mr. W. Decourcy. The evening will be devoted to short papers, and Messrs G. Ball, E. Bennis, and J. Stapely will read papers, and two evenings will be occupied with debates.

**IRISH DAIRY ASSOCIATION'S BUTTER AND POULTRY SHOW, &c.**  
The first annual show of the Irish Dairy Association, which will be held in the Limerick Exhibition on Thursday next, promises to be a success. The catalogue is a very extensive and it is satisfactory to state that the various departments have filled up very well. The butter show requires special mention, for no other will it exceed in point of numbers. It will apply to any similar show held in this city, and will prove to be one of the largest exhibitions ever held in any part of the United Kingdom. The entries tot up to 430, they are representative of the important dairies in Ireland—North, South, East, and West, and also include English competitors who won at Islington and other large butter shows. The Lord Lieutenant has presented a silver cup, and there are five others for competition. There are 13 classes for creamery butter, and a notable feature will be the "keep-lass" for which butter has been sent in so long as 14 days back. Another branch of the show will be the egg department, for which there are three classes, and then there is a table section. The Bacon Merchants' Association give a prize for two classes of pigs. Messrs J. Shaw, and Matterson, have been selected by the Committee of the Irish Dairy Association to exhibit at the Show specimens of animals they consider best suited for the show in Limerick. Next may be mentioned the class of dairy cows. Much interest will be shown in the butter-judging competitions by creamery managers, and there is another class for dairymaids and farmer's daughters. In the creamery section many of the best dairies in Ireland are represented, and it may be noticed that two or three working dairies, including the celebrated Disc Churn, will be on hand.

We are glad to notice that the literary department of the dairy question runs concurrently with the practical issue, for there are four classes of competitions for which prizes will be given. The conference of Irish Creamery Managers will be held in the Show-yard during the afternoon. The Band of the 1st Volunteer Regiment will be present in the Show. In the evening an address on Agricultural Education will be delivered at the Athenæum by Hon. Horace Plunkett, M.P., President of the Agricultural Organization Society, and it is certain to be a large attendance, having regard to the fact that the Munster Fair will be on Thursday and Friday next.

### S. JOHN'S CHURCH.

Harvest Thanksgiving, was held at S. John's Church on Sunday, October 21st. Both services were very well attended, especially the morning service—in fact, it is many a day since a gathering filled the little church. The total sum of £6 was realised by the offertories.

*Dancing Prince Hal* before a large audience. The burlesque introduces a great deal of the Music Hall element, and the performance throughout was received with applause. The principal part (the *nom rôle*) was sustained by Miss Florence Black in a spirited manner, and she sang and danced with great *verve*, and was the recipient of warm applause throughout the two acts into which the burlesque is divided. Miss Jenny Richards, ably seconded her as "Mary Ellen, the Village Beauty," her graceful dancing winning marked approbation. The "King" and "John Falstaff" were humorously represented by Messrs James Clarence and J. E. Bell with grotesque humour, and the duties of these clever comedians who seem to have worked together in double harness for years, kept the house in excellent humour. "Little Major Tit-bits" caused incessant merriment, too, with his quaint antics as "Dame Quickley," and his excellent rendering of "Chevaliers E, don't know where we are," was loudly redemanded. Mr. George Delaforce (a fine elocutionist, who subsequently described in several short recitations the *Tableaux Vivants*) was particularly good as "Captain Bacon," and Mr. Arthur Gilbert as "Mesmer" deserves a word of praise for his quiet acting, singing, whistling a duet, and for his part in the "Cat's Duet," a most enjoyable item. The other parts were well sustained. The ballet troop danced gracefully. The scenery (which was brought by the Company), was very effective, and the dresses rich and appropriate. The *Tableaux Vivants* are a commendable addition to the entertainment, and are worth a special visit on their own account.

### DEATH OF A CO. TIPPERARY MAN IN NEW ZEALAND.

Our obituary column this evening contains the announcement of the demise at Auckland, New Zealand, of Mr. Jonathan Cullen, brother of Mr. George Cullen, of Newport, County Tipperary. Deceased gentleman was well known in this city by the older generation. For many years he was one of the staff of Cannock and Co. in Sir Peter Tait's time, and proved himself a highly capable business man, as well as a general favourite. Later on he took up business as one of the firm of Birley, Cullen, and McClure, who held an establishment in George-street. Then he went to Bradford and started in the manufacturing line with great success, but owing to his delicate health was eventually ordered by the doctors to New Zealand. Here he again came to the front, being for some years manager of the Kaipoi Wollen Factory, Christ Church, the largest in the southern hemisphere. Under his skilful and unceasing supervision the trade of the concern increased to such an extent that it was found necessary to build a third factory in addition to the two already in existence, and the dividend reached 15 per cent. Unfortunately, Mr. Cullen's health again became precarious, and he was ordered back to Auckland, where he passed away on September 1st, in the presence of all the members of his family. The sad intelligence will be received with much regret by his old friends in this city and district.

### THE GLIN INDUSTRIAL SCHOOL.

#### BOARD MEETING AT GLIN.

A meeting of the Glin Industrial School Board was held at Glin on Saturday. The members from Limerick and a few other unions went down by steamer, and arrived at their destination at 1.30. There were present—Mr. M. J. Nolan, J. P., Listowel Union, in the chair. Also present—Limerick Union, General Lord Clarina, Messrs Thomas B. Mitchell, Thomas Bourke, D. F. M'Namara, Wm. Nunan; Croom Union, T. Clifford; Kilmallock, Thomas O'Donnell, James Lyons, J. W. Clery, Michael Conway, Patrick Hogan; Listowel, M. J. Nolan, J. P.; R. Boyle, Jerh Nolan, P. O'Shaughnessy; Newcastlewest, Edward Wm. O'Brien, D. L., Edmund Mulcahy, Mr. Wm. O'Sullivan; Rathkeale, Lord Monteagle, R. Pigott, Michael Fitzgerald, and Maurice Fitzgibbon. Mr. Edmund Bourke, Local Government Board Inspector, was present, as well as

Mackay's section of the Limerick Fish Conservators was held in the Town Hall. The meeting was called by requisition published in the Press, and signed by the following—Mr. S. M' Auliffe, F. J. M' Auliffe, A. Mackay, Wm. J. and J. Connery. The object for which the meeting was called, according to the notice, was the purpose of electing officers and servants of the Board, and taking such steps as may be deemed necessary for the protection, care, and advancement of the districts of Shannon. Only the members who have been elected by Mr. Mackay's side attended at the meeting, of the *ex-officio* or elected members at the side having put in an appearance. There were present—Messrs A. Mackay, M. J. M' Auliffe, Joseph P. M' Namara, James Halpin, J. M. Wm. Kelly, James Connery, and Pat M' Auliffe. In addition there was a large attendance of fishermen.

Mr. M' Auliffe, B. L. was moved to the chair on the proposition of Mr. Mackay.

The Chairman in opening the meeting read the requisition announcing the object for which the meeting was being held.

Mr. Mackay then addressed the meeting. He read the circular, published by the other side, calling a special meeting for Monday week did not say anything, and they considered it was most unkind to those who might have had something to say with regard to the election of clerk, which, in his mind, was the most important matter in connection with the Limerick Fishery Board. Even Mr. Longfield states that more depends on the Board than on any other officer in connection with the Board. Consequently, it was important to have a man who would devote sufficient time to the work, and who would be in a position to do so. There was no doubt but Mr. Alton when he was a young man, took a very active interest in business, and did his best in the interests of the fisheries. For some time before Mr. Alton's death the business was performed by Mr. Hosford. He (Mr. Mackay) held a very strong opinion about Mr. Hosford, but he certainly thought that from Mr. Hosford's position he could not give sufficient attention to his business. Mr. Hosford could not be expected to go to places as Carrick-on-Suir, to the county Cavan, to Birr, and consequently he thought the conservators would agree with him that it would be necessary to have a clerk who would be able to devote all his time, or nearly all his time, to the business of the Board. He had a man in mind whom he believed had all the necessary qualifications for the position, and who, he was sure, would give every satisfaction. He referred to Mr. Patrick Moloney, and he had great pleasure in proposing that Mr. Moloney be appointed to the Board.

Mr. P. M' Auliffe seconded the proposition, and the Chairman put to the meeting and declared it unanimously passed.

Mr. Mackay remarked that the salary paid to the late Mr. Alton was £250 a year, but Mr. Hosford had accepted the appointment at £200 a year. Mr. Moloney was prepared to take the position at the same salary, and he begged to move his resolution that the salary be £100 a year.

Mr. Moloney, in returning thanks, said he would leave nothing undone to give satisfaction in discharge of the duties.

Mr. Mackay called upon Mr. Moloney to read the minutes of the last meeting of the Board.

Mr. Moloney read from a book the minutes of the meeting held by Mr. Mackay's section of the Board on last Monday week, after the special meeting had been declared adjourned by Mr. M' Namara, who was evidently appointed Chairman of the meeting by a majority of the Board.

The Chairman then entered on a criticism of the work done by the old Board. Alluding to the expenditure he said that £600 had been unnecessarily spent on the steam launch, and they found that no less than £300 had been paid to the Inspectors, making a total of £900 out of an income of £2,400. The money of the Board had been spent in the open season instead of in the close season, when expenditure
