fetch top price; and is neglected in the salting; absolutely nothing else but neglect, or ignorance. On 28th February I sold 8 at 117s, 4 at 116s, 1 at 108s; 1st March, 18 at 117s, 3 at 108s; 2nd, 8 at 118s, 1 at 116s, 3 at 110s; 3rd, 6 at 118s, 4 at 114s, 1 at 112s, 3 at 101s; 5th, 5 at 116s, 8 at 115s, 2 at 114s; 6th, 2 at 116s, 11 at 115s, 2 at 112s; total, 80, showing an increase of 14 over last week's supply. During the past week a case of great importance to creameries has been decided. I hope none of my friends will run the risk of polluting streams, it is easy to avoid this risk, as one teaspoonful of permanganate of potash would disinfect all the discharge from a factory for a day, and would not cost a ld. One gentleman runs all his discharge through a trench into which he has tipped a few loads of mould from his bog, this purifies most perfectly the overflow, and leaves him the best possible manure for green crops. This day's top price was 112s, owing to the quieter advices from all markets.
