the origin of the tradition of the Scot, Dr. Warren Upham's paper on the period of the Great Ice Age, Eastern Exploration; the Babytonian Records of a Primitive Monotheism; Biological Research; Habit of Man, &c. Reference was made to the Institute's increasing membership abroad and in the Colonies, and the arrangements by which its most distant members could take a part in considering the subjects brought forward, also to the useful purposes which the members, especially those in the Colonies, found the Society's investigations served. The annual address was given by Professor Duns, F.E.E. the subject being Archaeology and Anthropology, especially as connected with Folk-lore, and more particularly Stone Folk-lore. Several leading members apoke to the resolutions, after which a vote of thanks to the President concluded the proceedings.
