#### SHIPPING.

The Docks presented a busy aspect during the week, several vessels being discharged, and as a consequence a good deal of employment was afforded the labouring classes. The arrivals were—"Vincent," ship, register, 1,776 tons, from Tacoma, cargo, 3,000 tons wheat, for Messrs J Bannatyne and Son's as "Baron Elibank," 1,147 tons, from the River Plate, cargo maize, 2,200 tons, for Messrs J Bannatyne and Sons; "Eiken-dasund," barque, 797 tons, from Buenos Ayres, cargo wheat, 1,100 tons, for the same firm.

#### SERIOUS ROW OVER A COTTAGE.

##### SEVERAL PEOPLE INJURED.

Our Pallaskenny correspondent writes:—Intel- ligence has just reached here of a very serious row which occurred on Friday at Beigh, about five miles from here, in connection with the possession of a cottage. The information to hand is of a rather meagre character, but the following appear to be the main facts of the case:—A labourer named Michael Murphy held a freehold, which he has just sold to Mr Wm Waller, D L, intending to go to live in a labourer's cottage, which had been built for him. He was about to leave for his new abode, when two men named Connell, father and son, relations of his, came to take possession of the old house, and the row referred to was the result. Pitch-forks, scythes, and hatchets were, it is alleged, freely used, and some very nasty wounds have been sustained on both sides. Murphy was severely stabbed on the arm, and sustained a severe scalp wound. His wife, who also took part in the row, got a very dangerous wound on the temple, and the two Connells have some nasty wounds on various parts of the body. When the police arrived on the scene they found the house besmeared with blood, and the weapons of warfare strewn around in all directions. The parties had their wounds dressed last evening by Dr Hannigan.

#### A FARMER KILLED BY LIGHTNING IN COUNTY LIMERICK.

Yesterday a respectable farmer named O'Gorman residing a short distance from Rathkeale, was killed by lightning. The deceased was engaged making a rick of hay, for which purpose he was using a steel fork, which, it is supposed, attracted the electric fluid. The poor man was instantly killed.
