impossible for me, and I dare say many other consumers, to give a definite answer.

Would it not be well if the Manager (Mr Spillane) would in to-morrow or Saturday's local papers explain those points, and get his committee to postpone the consideration of the matter till, say, Monday or Tuesday, and thereby give the consumers an opportunity of considering what they ought to do.

If the 12s lights would be equal in power to 6 or 8 feet gas jets the writer would be paying £8 to £9 per annum instead of £18 to £20 which he is now paying for gas.

I may say that since I received the circular I have made inquiry at Messrs Boyd & Co, William street, as to the relative cost of gas and electric light, and as well as they can calculate they are of the opinion that if anything the electric light has the advantage, while it is far cleaner and pleasanter to use, and it would appear that when a single private concern like Messrs Boyd can produce the light at about, or less than the cost of gas, it should come considerably less expensive when supplied from one main or common centre to a large number of consumers.

Trusting that as this matter concerns a large number of the citizens, you will find space for this.

Yours truly,

A CONSUMER.

FOUND DROWNED.

The body of a man, name unknown and aged about 60, was discovered this morning by a man named Grimes, lying on the bank of the Shannon, near Coonagh. It is believed the deceased was a stranger, and the supposition is that the body had been carried down by the floods from the upper waters. The remains present the appearance of having been six or seven days in the river. Sergeant Rogers, of Cahirdavin, has the case in hands, and an inquest will be held to-morrow.

ALLEGED SERIOUS ASSAULT IN TIPPERARY.

The report has reached Nenagh that a man named Kenny, living at Castletown, between Moneygall and Roscrea, was so seriously assaulted by neighbours of his named Cummins on Tuesday last as to render his life in danger. A very unfriendly feeling existed between the parties for some time past respecting a right of way. These strained relations are re-resented to have culminated in a collision Pon the day in question, and in the course of what is described as a fierce row Patrick and Mary Cummins are alleged to have assaulted Kenny with such effect that his dying depositions had to be taken. Kenny's assailants have been arrested, it is stated, by the Clonakenny Constabulary.

"As this policy is obviously injurious to Limerick as a distributing centre, the traders have formed themselves into an association, and have sent a strong remonstrance to the Managing Director of the Steamship Company on the subject. He has positively refused to make any change in their present-carrying system, and under these circumstances the Association has decided to take immediate steps to have an independent direct weekly sailing between Liverpool and this Port, and they invite your cordial support in the matter.
