DROWNING ACCIDENT AT THE DOCKS.

Mr DeCourcy and a jury held an inquest this morning at eleven o'clock at, No 4 Broad street, on the body of a man named Patrick O'Grady, aged 28 years, who was drowned yesterday in the Docks. Sergeant Flynn, Dock Station, conducted the inquiry on behalf of the police.

Mary O'Grady identified the body as that of her husband; she last saw him alive at 5 o'clock on yesterday morning, when he went to work at the docks; deceased was not subject to fits.

John McNamara deposed that deceased was employed by his brother to land some timber which was lying in the water at the docks, having been brought in by the steamship Leyden; witness saw deceased standing on the timber and suddenly disappear; he and two other men did their utmost to get deceased out of the water, but he sank under the timber and never rose; after about three quarters of an hour a man named William Naughton succeeded in raising the body with a boat hook; they brought him on board the ship and sent for the doctor who pronounced life extinct.

Dr Shanahan deposed to examining the body of deceased on board the Leyden; there were a few scratches on his face, which might have been caused by knocking against the timber; death was due to drowning.

The jury returned a verdict to the effect that the deceased man met his death by accidental drowning.
