A GIGANTIC INDUSTRY.—Readers of the *English Woman* for April will find a very interesting article headed "A Trip to Fray Bentos." To show the vast business carried on there, and dwelt upon in the article in question, we need only quote the following:—"In spite of the futile attacks of a host of jealous and disappointed imitators, the Liebig Company's Extract has persistently and steadily advanced in public appreciation and esteem, until it now holds the unrivalled position of practically monopolising the sale throughout the civilized world. No greater proof of this fact can be given than the certified annual consumption, which averages over eight million jars, a convincing testimony to the value to the Extract."

WATER SUPPLY.—No house should be without a reliable filter. The only perfect filters, new patent, from 2s 6d each, at Goodwin & Co's Glass, China and Lump Warehouse, 64 and 65 William street.
